Foreword

The 2023 Budget Review and Outlook Paper (BROP) is the first to be prepared by the Kenya Kwanza Administration. The 2023 BROP has been prepared at a time when the Government is implementing priority programmes, policies and reforms under the Bottom-Up Economic Transformation Agenda (BETA) that were outlined in the 2023 Budget Policy Statement aimed at economic turnaround and inclusive growth. The priority programmes and policies under BETA are detailed in the Fourth Medium-Term Plan for the period 2023-2027 which is anchored on Kenya Vision 2030.

The Kenya Kwanza Administration took office at a time when the economy was facing three major shocks, among them, the conflict between Russia and Ukraine that disrupted global trade leading to increased fuel, fertiliser and food prices; the lingering effects of the COVID-19 pandemic; and a severe drought witnessed in the region and most parts of the country associated with climate change which gravely impacted on food security. The impact of climate change therefore, created urgency to refocus investments on mitigation, adaptation and firm resilience. The drought not only aggravated the inflationary pressures but also subjected millions of homesteads to severe food insecurity, loss of lives, livelihoods and loss of livestock. As a result, activities in the agriculture sector contracted by 1.6 percent in 2022.

In order to ease the burden to Kenyans, the Government embarked on immediate interventions that included: rolling out fertiliser and seeds subsidies to farmers across the country to enhance food production; and granting of duty waiver for importation of key food products such as white maize, rice, yellow maize, soya beans, soya bean meal, assorted protein concentrates, and feed additives in order to bridge the food stocks deficit as well as lower and stabilize food prices. The Government also rolled out the Financial Inclusion Fund, or the Hustlers Fund in November 2022 that supports individuals and Micro, Small and Medium Enterprises (MSMEs) excluded at the bottom of the pyramid and encourage savings.

Following the various Government interventions and improvement in weather conditions during the March-May planting season, the economy registered a growth of 5.3 percent in quarter 1 (Q1) of 2023. This was mainly due to a strong recovery in the agricultural activities 5.8 percent from a contraction of 1.7 percent in a similar quarter in 2022. The economy expanded by 4.8 percent in 2022 and is projected to expand further by 5.5 percent in 2023 and maintain a strong momentum over the medium-term. This growth outlook will be supported by, a broad-based private sector growth, including continued strong performance of the services sector and recoveries in agriculture, while the public sector consolidates. The growth outlook will be reinforced by implementation of policies and reforms under the priority sectors of the Bottom - Up Economic Transformation Agenda.

BETA is important because most Kenyans overtime sunk into abject poverty mostly because markets in their segments were interfered with. This disrupted market development, protection and regulation. The outcome of this is an institutional failure problem resulting in policy failure. The interventions at the Bottom of the pyramid under this Administration, are therefore targeted to ensure markets operate efficiently. In order to achieve economic transformation, two driving factors are important, that is, Human Capital Development and enhancement of savings. The Government will ignite a sustained economic transformation, by raising capital accumulation. This is in addition to ongoing investments in education, health, nutrition and labour markets to boost human capital development.

The implementation of the FY2022/23 budget marked the transition from the previous Administration to the current one. The first half of the FY 2022/23 was marked by slow implementation of programmes and projects due to inadequate revenue resources as the new Government settled in office. Additionally, fiscal performance was affected by the general

slowdown of economic activities occasioned by the adverse impact of shocks that hit the country. In the FY 2022/23, the Government inherited a fiscal deficit target of 6.2 percent of GDP. Given the realities, the Government embarked on reprioritization and cost-cutting measures to ensure smooth implementation of priority programmes for the remainder of the financial year. Consequently, the fiscal deficit, including grants for the FY 2022/23 was revised downwards from the planned 6.2 percent under the previous Administration to a revised target of 5.8 percent of GDP through Supplementary II Budget. The Government was able to meet most of her obligations including debt repayments and releasing funds due to Government Ministries, Departments and Agencies (MDAs) and other Semi-Autonomous Government. Additionally, for the first time in seven years, the Government disbursed 100 percent of Equitable Share to the 47 County Governments amounting to Ksh 399.6 billion by 30th June, 2023. This included Ksh 370.0 billion equitable share and the arrears of Ksh 29.6 billion inherited from previous regime. Further, in support of development activities at the Constituency level especially in support of education, health and in some cases for infrastructure, the Government also disbursed fully by 30th June, 2023, the entire allocation for National Government Constituency Development Fund (NGCDF) amounting to Ksh 47.2 billion. At the closure of the FY 2022/23, the actual outcome was a fiscal deficit of 5.6 percent of GDP, down from 6.2 percent of GDP in the FY 2021/22, a strong demonstration of Government's commitment to create fiscal space and manage public debt. The Government targets to lower the fiscal deficit further to 5.4 percent of GDP in the budget for the FY 2023/24 in line with the fiscal consolidation plan.

The implementation of FY 2023/24 budget has started in earnest. While the Government has limited fiscal space, spending units directed to ensure smooth of planned programmes during the remainder of the financial year without accumulating any pending bills. In order to boost supply of public goods, the Government has strengthened the Public Private Partnerships (PPP) framework so as to leverage on private sector to deliver projects that have strong economic, commercial and environmental benefits and aligned to the national priorities.

As we prepare for the FY 2024/25 budget, all the spending units are therefore, expected to lay emphasis on the priority programmes under the BETA by increasing investments in Agricultural Transformation and Inclusive Growth; Micro, Small and Medium Enterprise (MSME); Housing and Settlement; Healthcare; and Digital Superhighway and Creative Industry. The budgeting for the FY 2024/25, as stated in the 2023 Budget Policy Statement will strictly be through a value chain under five clusters, namely, Finance and Production Economy; Infrastructure; Land and Natural Resource; Social Sectors; and Governance and Public Administration. This will ensure adequate resources are directed towards the nine value chains, namely, (i) Leather; (ii) Cotton; (iii) Dairy; (iv) Edible Oils; (v) Tea; (vi) Rice; (vii) Blue Economy; (viii) Natural Resources Including Minerals & Forestry); and (ix) Building Materials that are under implementation in the FY 2023/24 budget.

Given the limited resources, the Sector Working Groups (SWGs) and Government Ministries, Departments and Agencies (MDAs) are therefore directed to critically review, evaluate and prioritize all budget allocations to strictly achieve the BETA priorities. The hard sector ceilings provided for the FY 2024/25 budget and the Medium Term will form the basis of allocations.

NJUGUNA S. NDUNG'U, CBS
CABINET SECRETARY

Acknowledgement

The 2023 BROP has been prepared in accordance with the Public Finance Management (PFM) Act, 2012 and its Regulations. The document provides the fiscal outturn for the FY 2022/23, the macro-economic projections and set sector ceilings for the FY 2023/24 and the Medium Term Budget. The document also provides an overview of how the actual performance of the FY 2022/23 affected compliance in the fiscal responsibility principles and the financial objectives outlined in the PFM Act, 2012. The 2023 BROP will form the basis for the development of the 2024 Budget Policy Statement (BPS) that will detail the various programmes and initiatives that will be undertaken during the Fourth Medium Term Plan of Vision 2030.

The FY 2022/23 closed on a positive note with the deficit of Ksh 800.4 billion (5.6 percent of GDP) against a target of Ksh 846.2 billion (5.8 percent of GDP) despite challenges in revenue collections and difficulties in raising resources from the domestic market. Total revenue collection by the year to June 2023 grew by 7.3 percent to amount to Ksh 2,360.5 billion (16.5 percent of GDP). The strong outcome in revenue collection in the FY 2022/23 provides a strong base for supporting the revenue and expenditure performance in the FY 2023/24 and the medium term budget. Government will continue to pursue its growth friendly fiscal consolidation plan that will signal debt sustainability and manageable fiscal gap.

As we embark on the preparation of the FY2024/25 and the Medium-Term budget, I wish to underscore that the 2023 BROP was prepared in a collaborative effort among various Government Agencies. We thank all the MDAs as well as other spending units for the timely provision of useful data and information on their FY 2022/23 budget execution. We are also grateful to the Macro Working Group, that reviewed this document to ensure it satisfies the PFM Act, 2012 and set out the sector ceilings contained therein to guide the rest of the sectors in the preparation of their FY 2024/25 and Medium Term Budgets. This document incorporated key inputs from various Directorates and Departments within the National Treasury and Economic Planning. I wish to thank the core team from the Macro and Fiscal Affairs Department that coordinated the finalization of this document.

Finally, allow me to thank all institutions that we consulted as well as the public for the useful comments and inputs. I wish to reiterate the importance of public participation in the FY 2024/25 and the Medium Term Budget preparation process by calling on all Sector Working Groups to ensure engagement and open public and stakeholders' participation and incorporation in the development of sector priorities. I also urge all MDAs to avoid dismal prioritization, leading to less than optimal budgetary allocation which is often followed with requests for additional funding, and distortion of the agreed Sector Budget Proposals.

DR. CHRIS KIPTOO, CBS
PRINCIPAL SECRETARY/ THE NATIONAL TREASURY

Legal Basis for the Publication of the Budget Review and Outlook Paper

The Budget Review and Outlook Paper is prepared in accordance with Section 26 of the Public Finance Management Act, 2012. The law states that:

- 1) The National Treasury shall prepare and submit to -Cabinet for approval, by the 30th September in each financial year, a Budget Review and Outlook Paper, which shall include:
 - a. Actual fiscal performance in the previous financial year compared to the budget appropriation for that year;
 - b. Updated macro-economic and financial forecasts with sufficient information to show changes from the forecasts in the most recent Budget Policy Statement
 - c. Information on how actual financial performance for the previous financial year may have affected compliance with the fiscal responsibility principles or the financial objectives in the latest Budget Policy Statement; and
 - d. The reasons for any deviation from the financial objectives together with proposals to address the deviation and the time estimated to do so.
- 2) Cabinet shall consider the Budget Review and Outlook Paper with a view to approving it, with or without amendments, not later than fourteen days after its submission.
- 3) Not later than seven days after the BROP has been approved by Cabinet, the National Treasury shall:
 - a. Submit the paper to the Budget Committee of the National Assembly to be laid before each house of Parliament; and
 - b. Publish and publicize the paper not later than fifteen days after laying the Paper before Parliament.

Fiscal Responsibility Principles in the Public Finance Management Act

In line with the Constitution, the Public Finance Management (PFM) Act, 2012, sets out the fiscal responsibility principles to ensure prudent and transparent management of public resources. Section 15 of the Act states that:

- 1) Over the medium term, a minimum of 30% of the national budget shall be allocated to development expenditure
- 2) The national government's expenditure on wages and benefits for public officers shall not exceed a percentage of the national government revenue as prescribed by the regulations.
- 3) Over the medium term, the national government's borrowings shall be used only for the purpose of financing development expenditure and not for recurrent expenditure
- 4) Public debt and obligations shall be maintained at a sustainable level as approved by Parliament (NG) and county assembly (CG)
- 5) Fiscal risks shall be managed prudently
- 6) A reasonable degree of predictability with respect to the level of tax rates and tax bases shall be maintained, taking into account any tax reforms that may be made in the future

Executive Summary

The 2023 BROP has been prepared pursuant to PFM Act, 2012 and its Regulations. The document provides an overview of the Government's financial performance for the FY 2022/23 including compliance with the fiscal responsibility principles and the financial objectives spelt out in the PFM Act. It also presents macroeconomic projections and the sector ceilings for the FY 2024/25 and the medium-term budget as well as information on variations from the projections outlined in the 2023 Budget Policy Statement.

The 2023 Budget Review and Outlook Paper (BROP) has been prepared against a backdrop of continued global uncertainties, reflecting high but easing inflationary pressures, weak global growth outlook, heightened geopolitical tensions particularly the conflict in Ukraine, concerns about financial sector stability in advanced economies, and increased food insecurity due to climate-related shocks. Global growth is projected to slow down to 3.0 percent in 2023 and 2024 from 3.5 percent in 2022, reflecting the impact of the tightening of monetary policy and escalation of geopolitical tensions particularly the ongoing war in Ukraine.

On the domestic scene, Kenya's economic performance is projected to remain strong and resilient over the medium term. The economy recorded a strong growth of 5.3 percent in the first quarter reflecting a strong recovery in agriculture sector and buoyant services sector including financial and insurance, information and communication, wholesale and retail trade and transport and storage. The economy is expected to remain strong and expand by 5.5 percent in 2023 (5.6 percent in FY 2023/24) and 5.7 percent in 2024 (5.9 percent in FY 2024/25).

This growth will be supported by the strong recovery in agriculture and resilient services sector that both will drive the industrial sector. The adequate rainfall during the long rain season in most parts of the country and the anticipated short rains later in 2023 will continue to support activities in the agriculture, electricity, and water supply sectors. The improved availability of raw materials following the recovery in agriculture and a decline in global commodity prices will support food processing in the manufacturing sector. Additionally, activities in the construction sector will be boosted by the rollout of the affordable housing programme. Services sector will be supported by resilient activities in the financial and insurance, information and communication, wholesale and retail trade and transport and storage. The easing of global commodity prices and supply chain constraints coupled with robust private sector investment are expected to support domestic demand.

The FY 2022/23 closed on a positive note with the deficit of Ksh 800.4 billion (5.6 percent of GDP) against a target of Ksh 846.2 billion (5.8 percent of GDP) despite challenges in revenue collections and difficulties in raising resources from the domestic market. Total revenue collection by the year to June 2023 grew by 7.3 percent to amount to Ksh 2,360.5 billion (16.3 percent of GDP). This was a performance of 95.4 percent against the target. The positive growth in revenue was recorded in all tax revenue categories, an indication of continued recovery in revenue collection. Additionally, the Government purposefully reduced the fiscal deficit to 5.6 percent of GDP by June 2023, from the 6.2 percent registered in FY 2021/22, this demonstrated the Government's commitment to create fiscal space and manage public debt. The fiscal performance was broadly in line with financial objectives and fiscal responsibility principles outlined in the PFM Act, 2012 and the 2023 Budget Policy Statement.

The strong outcome in revenue collection in the FY 2022/23 provides a strong base for supporting the revenue and expenditure performance in the FY 2023/24 and the medium term budget. Indeed, implementation of FY 2023/24 has started in earnest and we are looking forward to the smooth implementation of planned programmes during the remainder of the financial year. Towards this end, the Government will continue to pursue its growth friendly fiscal consolidation plan that will signal debt sustainability and manageable fiscal gap. The plan

will see a gradual decline in the fiscal deficit from 5.4 percent of GDP in the FY 2023/24 to 4.4 percent of GDP in the FY 2024/25 and further to 3.6 percent of GDP in the FY 2026/27. This will be supported by enhanced revenue mobilization, reprioritization and rationalization of expenditures but above all grow the tax base through an appropriate tax regime. This will ultimately reduce public debt and create fiscal space over the medium term to finance priority capital projects

In the FY 2024/25 budget, all the spending units are expected to lay emphasis on the priority programmes under the BETA by increasing investments in Agricultural Transformation and Inclusive Growth; Micro, Small and Medium Enterprise (MSME); Housing and Settlement; Healthcare; and Digital Superhighway and Creative Industry. The budgeting for the FY 2023/24, as stated in the 2023 Budget Policy Statement will strictly be through a value chain under five clusters, namely, Finance and Production Economy; Infrastructure; Land and Natural Resource; Social Sectors; and Governance and Public Administration. This will ensure adequate resources are directed towards the nine value chains, namely, (i) Leather; (ii) Cotton; (iii) Dairy; (iv) Edible Oils; (v) Tea; (vi) Rice; (vii) Blue Economy; (viii) Natural Resources Including Minerals & Forestry); and (ix) Building Materials that are under implementation in the FY 2023/24 budget.

Given the limited resources, the Sector Working Groups (SWGs) and Government Ministries, Departments and Agencies (MDAs) are therefore directed to critically review, evaluate and prioritize all budget allocations to strictly achieve the BETA priorities. The hard sector ceilings provided for the FY 2024/25 budget and the Medium Term will form the basis of allocations.

DRAFT 2023

I. INTRODUCTION

Objective of the 2023 Budget Review and Outlook Paper

1. The 2023 BROP provides a review of the fiscal performance for the financial year 2022/23 including adherence to the objectives and principles outlined in the 2023 Budget Policy Statement (BPS) and the PFM Act, 2012. It also provides a basis for the revision of the current budget and the financial policies underpinning the medium-term plan. The 2023 BROP will form the basis of the development of the 2024 BPS that will detail programmes and projects for implementation over the medium term as outlined in the Fourth Medium Term Plan (MTP IV 2023-2027).
2. The FY 2022/23 closed on a positive note with the deficit of Ksh 800.4 billion (5.6 percent of GDP) against a target of Ksh 846.2 billion (5.8 percent of GDP) despite challenges in revenue collections and difficulties in raising resources from the domestic market. Total revenue collection by the year to June 2023 grew by 7.3 percent to amount to Ksh 2,360.5 billion (16.5 percent of GDP). This performance was below target by Ksh 118.1 billion on account of shortfalls registered in all taxes.
3. As required by the PFM Act, 2012, the annual budget process aims to improve the efficiency and effectiveness of revenue mobilisation and government spending to ensure debt sustainability and stimulate economic activity. In this regard, this BROP provides sector ceilings which will guide the budget preparation process for the FY 2024/25 and the medium term. The sector ceilings are based on the overall resource envelope that is informed by the medium-term macro-fiscal projections as presented in Sections III and IV of this document. Sector ceilings in this BROP are aligned to the priorities of the Government that enhance value chain and linkage to Bottom-Up Economic Transformation Agenda and other priority programmes outlined in MTP IV of the Vision 2030 and that support mitigation and adaptation of climate change.
4. The rest of the document is organized as follows: Section II provides a review of the fiscal performance for the FY 2022/23 and its implications on the financial objectives set out in the 2023 BPS; Section III highlights the recent economic developments and outlook; Section IV presents the proposed resource allocation framework; and Sections V presents conclusion.

II. REVIEW OF FISCAL PERFORMANCE FOR THE FY 2022/23

A. FY 2022/23 Fiscal Performance

Revenue Performance

5. Total revenue including external grants was Ksh 2,383.6 billion against a revised target of Ksh 2,520.3 billion recording a shortfall of Ksh 136.7 billion (**Table 1**). Revenue performance, including Appropriation in Aid (A-i-A), was Ksh 2,360.5 billion in FY 2022/23 from Ksh 2199.8 billion in FY 2021/22, a growth of 7.3 percent. The growth in revenue collection was recorded in all the broad tax categories. However, the performance fell short of the target largely attributed to the uncertain operating environment related to the general elections and the negative impact of the geo-politics that led to global economic slowdown and supply chain disruptions. Ordinary revenue collection was Ksh 2,041.1 billion against a target of Ksh 2,145.4 billion.

6. Collections from the broad tax categories were below their respective targets in the period under review. Excise duty recorded the highest shortfall of Ksh 29.5 billion, followed by VAT on domestic goods and services and other income tax of Ksh 24.5 billion and Ksh 24.4 billion respectively. The shortfall in excise duty is explained by the decline in oil volumes, motor vehicle imports and deliveries of domestic excisable goods such as cosmetics, beer and spirits. Domestic VAT collection was mainly affected by subdued growth in the construction, transport and manufacturing sectors owing to the high cost of inputs and increasing inflationary pressures. The decline in VAT imports is explained by non-oil imports where the volumes of containerized cargo dropped by 8.4 percent mainly influenced by changes in buying patterns given the import price pressures. On the other hand, the performance of other income tax is largely explained by the underperformance of Corporate Income Tax (CIT). Performance of Pay as you Earn was explained by delayed disbursements to various Government entities which affected the remittances from the public sector.

7. The performance of ministerial A-i-A was Ksh 319.4 billion against a target of Ksh 333.2 billion. The shortfall of Ksh 13.8 billion was on account of shortfalls recorded in both recurrent and development A-i-A of Ksh 9.3 billion and Ksh 4.5 billion, respectively. Ministerial A-i-A recorded a growth of 13.3 percent in FY 2022/23.

1/ includes rent on land/buildings, fines and forfeitures, other taxes, loan interest receipts reimbursements and other fund contributions, fees, and miscellaneous revenue.

*Provisional

Source of Data: The National Treasury

8. External grants amounted to Ksh 23.1 billion against a revised target of Ksh 41.7 billion, registering a shortfall of Ksh 18.3 billion. This is composed of programme grants of Ksh 7.0 billion, project grants revenue of Ksh 7.5 billion and Project grants (A-i-A) of Ksh 8.6 billion (Table 4).

9. During the FY 2022/23, the Government collected Ksh 41.7 billion of investment income in the form of dividends, surplus funds, directors' fees and loan interest receipts against a revised target of Ksh 37.0 billion.

Expenditure Performance

10. Total expenditure and net lending in the FY 2022/23 amounted to Ksh 3,221.0 billion against a revised target of Ksh 3,366.6 billion, representing an under spending of Ksh 145.6 billion (4.4 percent deviation from the revised budget). The shortfall was attributed to low spending on both recurrent and development expenditure items (Table 2). There was delayed disbursement of project funds and a shortfall in domestic borrowing resulting in unfunded expenditures items. This led to a carryover of Ksh 77.5 billion during the period under review. In FY 2022/23, there was a full transfer of equitable share to County Governments while conditional allocation was below target by Ksh 20.6 billion.

11. The National Government's recurrent expenditure was Ksh 2,311.5 billion (including Ksh 60.9 billion spending by the Judiciary and Parliament) against a target of Ksh 2,367.7 billion, representing an under-spending of Ksh 58.9 billion. The recurrent spending was below target mainly due to lower than targeted spending on operations and maintenance by Ksh 35.4 billion and pension and other Consolidated Fund Services (CFS) by Ksh 24.3 billion. Interest payment for the period was Ksh 687.3 billion while spending on wages was Ksh 547.2 billion.

12. Development expenditure amounted to Ksh 493.7 billion against a revised target of Ksh 560.5 billion, translating to a shortfall of Ksh 66.9 billion. This was on account of lower than programmed absorption on externally funded programmes by Ksh 56.3 billion while spending on domestically financed programmes was above target by Ksh 7.1 billion.

Table 2: Expenditure and Net Lending, FY 2022/23 (Ksh Million)

Ministerial Expenditure

13. The total ministerial and other public agencies expenditure including A.I.A was Ksh 1,955.6 billion against a target of Ksh 2,091.4 billion, an absorption rate of 93.5 percent. Recurrent expenditure was Ksh 1,474.2 billion against a target of Ksh 1,508.2 billion, while development expenditure amounted to Ksh 481.3 billion against a target of Ksh 583.2 billion. The percentage of recurrent and development expenditures to the target was 97.7 percent and 82.5 percent respectively.

14. During the FY 2022/23, recurrent expenditures by the State Department for Basic Education, State Department for Higher Education and Research; Teachers Service Commission; State Department for Vocational and Technical Training; State Department for Public Health and Professional Standards; State Department for Post Training and Skills Development; State Department for implementation of Curriculum Reforms; and the Ministry of Health (Social Sector) accounted for 41.4 percent of total recurrent expenditure. In addition, the security sector accounted for 11.1 percent of total recurrent expenditure.

15. Analysis of development expenditure indicates that the State Department for Roads accounted for the largest share of the total development expenditure (18.9 percent), followed by the National Treasury (15.2 percent) and the State Department for Economic Planning (9.4 percent). **Table 3** shows the recurrent and development expenditures by Ministries, State Departments and other government entities for the period under review.

Source of Data: National Treasury

17. The fiscal deficit was financed through net external financing amounting to Ksh 310.8 billion (2.1 percent of GDP) and net domestic financing of Ksh 459.5 billion (3.2 percent of GDP). Total disbursements (inflows) including A-i-A amounted to Ksh 548.2 billion against a target of Ksh 597.2 billion. The disbursements included Ksh 74.2 billion project loans A-i-A, Ksh 61.8 billion project loans revenue, and Ksh 266.9 billion programme loans. External repayments (outflows) of principal debt amounted to Ksh 237.4 billion including principal repayments due to bilateral and multilateral organizations and commercial sources.

B. Fiscal Performance for the FY 2022/23 in relation to Financial Objectives

18. The fiscal performance in the FY 2022/23 is broadly in line with the financial objectives outlined in the PFM Act, 2012 and the 2023 BPS.

- i. The performance of the main tax heads in FY 2022/23 was below the revised budget targets resulting in a shortfall of Ksh 104.3 billion in ordinary revenue. Given this revenue shortfall, the projections for FY 2023/24 have an estimated revenue risk of Ksh 133.5 billion. The National Treasury and Kenya Revenue Authority (KRA) have put administrative measures such as the full roll-out of eTIMS; integration with Telcos; revamped cargo scanning; efficient management of tax refunds; and improved debt management to mitigate the revenue risk. In addition, tax measures in the Finance Act 2023 are expected to strengthen revenue performance. The revenue projections for the FY 2023/24 and over the medium term remain largely at the 2023 BPS level for ordinary revenue. However, projections for the ministerial A-i-A have been revised upward to reflect the outturn of FY 2022/23 and to include the Housing Levy that was introduced through the Finance Act, 2023;
- ii. The overall resource envelope remains largely within the 2023 BPS position. Therefore, the overall baseline expenditure ceilings for spending agencies will largely be retained at the same levels as per the 2023 BPS. Any adjustments would be to reflect changes in priority across sectors or MDAs and /or identified one-off expenditures. The increase in expenditure from the 2023 BPS position is mainly to cater for carry-over expenditures from FY 2022/23 and interest payments. The increased interest payments are due to the weakening of the Kenya Shilling and elevated interest rates in the domestic environment; and
- iii. The under-spending in recurrent and development budget for the FY 2022/23 can partly be explained by below the target disbursements for externally funded projects and low revenue collection. The Government will put in place appropriate measures to increase revenue collection, improve absorption of resources from development partners and explore alternative financing strategies early in the financial year to ensure the budget is fully funded.

C. Fiscal Responsibility Principles

19. In line with the Constitution, the PFM Act, 2012, the PFM Regulations, and in keeping in line with prudent and transparent management of public resources, the Government has largely adhered to the fiscal responsibility principles as set out in the statute as follows:

- i. The National Government's allocation to development expenditures over the medium term has been set above 30 percent of ministerial Government expenditures. In FY 2022/23, the allocation to development in the revised budget was 27.9 percent of the total expenditures while the actual expenditures were 25.2 percent (**Table 5**). This performance was below the set threshold on account of the rationalization of Government expenditures to reduce the fiscal deficit in line with the Government's agenda as well as below target disbursements for externally funded projects. In FY 2023/24, the allocation for development expenditure is 34.4 percent of ministerial Government expenditure and is projected to remain above the 30 percent threshold over the medium term.

- ii. The National Government's share of wages and benefits to revenues was 27.7 percent¹ in the FY 2022/23 which is within the statutory requirement of 35.0 percent of the National Government's equitable share of the revenue plus other revenues generated by the National Government (**Table 5**).

Source of Data: National Treasury

- iii. The fiscal responsibility principle spelled out in Section 15(2)(c) of the PFM Act, 2012 requires that over the medium term, the National Government's borrowing shall be used only for financing development expenditure. During the FY 2022/23, the National Government borrowed a total of Ksh 985.7 billion comprising project loans of Ksh 137.6 billion, programme loans of Ksh 266.9 billion, commercial borrowing of Ksh 102.2 billion, use of IMF SDR allocation of Ksh 42.8 billion and domestic securities of Ksh 437.5 billion. This borrowing was spent on loan funded projects of Ksh 136.2 billion, external redemptions of Ksh 237.4 billion and domestically funded development expenditures of Ksh 384.4 billion (inclusive of 30 percent equitable share).
- iv. The PFM Act, 2012 requires that public debt and obligations remain at sustainable levels and the Government is committed to adhering to this at all times. The debt sustainability analysis shows that Kenya's public debt remains sustainable as a medium performer in terms of debt carrying capacity. However, there is a high risk of debt distress as a result of global shocks leading to a slowdown of economic growth. Analysis of debt sustainability is as follows:
- (a) The external Debt Sustainability Analysis (DSA) demonstrates that the PV of the external debt to GDP ratio is below the 40 percent sustainability threshold throughout the projection period. However, the debt service to revenue ratio

¹ The 27.5 percent is exclusive of Ministry of Defense and NIS

breaches the threshold of 18 percent in 2024, 2025 and 2026. The high debt service to revenue ratio in 2024 is due to the maturity of the international sovereign bond (Table 6).

Table 6: Kenya’s External Debt Sustainability

Indicators	Thresholds	2022	2023	2024	2025	2026	2027
PV of debt-to-GDP ratio	40	27.8	29.5	30.5	29.4	28.0	27.1

Source: IMF Country Report No. 23/266-July 2023

- (b) The debt service to exports ratio remains above the 15 percent threshold due to subdued growth in exports leading to debt vulnerabilities; the international sovereign bond maturing in 2024; and the rollover of external commercial loans due in 2025 (Table 6). The ongoing implementation of the Government’s Bottom-up Economic Transformation Agenda (BETA) will provide policies aimed at improving economic growth including growth in Kenya’s export sector thus improved public debt sustainability ratios.
- (c) To reduce debt vulnerabilities, the Government has committed to a fiscal consolidation program and optimising the financing mix in favour of concessional borrowing to finance capital investments. Additionally, a steady and strong inflow of remittances and a favourable outlook for exports will play a major role in supporting external debt sustainability.
- (d) Overall, the Present Value (PV) of debt to GDP ratio is projected to remain above the 55 percent threshold in the medium term but is to decline gradually towards the threshold by 2027 (Table 7). The decline in debt levels is linked to the Government’s commitment to pursue a fiscal consolidation path by broadening the tax revenue base and minimizing non-priority expenditures. The PV of the debt to GDP indicator is projected to improve with the implementation of the fiscal reforms under the extended fund/extended credit facility program.

- v. On the principle of maintaining a reasonable degree of predictability with respect to the level of tax rates and tax bases, Kenya's tax rates have remained stable and predictable. To bolster the predictability of the tax system, the Government's National Tax Policy will enhance administrative efficiency of the tax system, provide consistency and certainty in tax legislation and management of tax expenditure. The Government is also in the process of finalizing the Medium Term Revenue Strategy, which will provide a comprehensive framework for guiding tax reforms in the medium term. Further, there is continuous effort to reform, modernize and simplify tax laws and processes to enhance compliance and expand the tax base. The Kenya Revenue Authority will continue to employ the use of technology to curb revenue leakages including the use of scanners, enhancements of iTax such as integration with Telcos, use of eTIMS, and Integrated Customs Management System (iCMS); improve efficiency in the management of tax refunds; improve taxpayer audits and implement specific measures to boost voluntary compliance.

20. The National Government fiscal projections for the 2023 BROP (**Table 8**) are largely consistent with the 2023 BPS estimates and shall inform the projections for the FY 2024/25 budget estimates and the medium term. The Government will not deviate from the fiscal responsibility principles but will make appropriate modifications to the financial objectives in the 2024 BPS to reflect changing circumstances.

D. County Governments' Fiscal Performance

Sources of County Government Revenue

21. Article 202 (1) of the Constitution provides for the equitable sharing of revenue raised nationally among the National and County Governments. In addition, Article 202 (2) provides for additional allocations to the County Governments from the National Government's share of revenue either conditionally or unconditionally. Article 209 (3) and (4) of the Constitution gives the County Governments the power to raise their own source revenue from property rates and entertainment taxes, as well as impose charges for services they provide. County Governments may also borrow in line with Article 212 (a) of the Constitution with guarantee from the National Government. However since the advent of devolution, no County Government has leveraged on this window to borrow. Section 138 and 139 of the PFM, Act 2012 allows County Governments to also receive grants from development partners to finance development of projects or delivery of services. **Table 9** summarizes total budgeted revenue from the various sources for the 47 County Governments for the FY 2022/23.

Table 9: County Government Sources of Revenue, FY 2022/23

Revenue Source	Budgeted County Government Revenue	Actual Disbursement	Budgeted % of Total Revenue
Equitable Share	370.0	399.6	82%
Additional Allocations of which:	22.5		5%
GoK	5.4		
Donor Funded	17.4	16.2	
OSR	57.4	37.8	13%
Total	449.9	453.6	100%

Source: National Treasury

*The Ksh 399.6 billion includes Ksh 29.6 billion balances brought forward from FY 2021/22.

22. The main source of revenue for the County Governments in the FY 2022/23 was the Equitable Share representing 82.2 percent of total revenue (**Table 9**). Additional allocations to the County Governments from the National Government's share of revenue as well as from proceeds of loans and grants accounted for 5.0 percent of the total county revenue while the budgeted own source revenue was 12.8 percent of the total County Governments budgeted revenue.

Transfers to County Governments

23. The total transfers to counties consist of equitable share, conditional grants from the National Governments' share of revenue and loans and grants from development partners. (**Table 10**).

24. During the FY 2022/23 a total of Ksh 399.6 billion was disbursed to the county governments comprising of Ksh 370 billion allocated to the County Governments as equitable share in the County Allocation of Revenue Act (CARA), 2022 and Ksh 29.6 billion FY 2021/22 equitable share balances brought forward. This indicates continued commitment by the Government to support devolution and ensure efficient delivery of services to the citizens.

25. Additional allocations to the county governments consist of allocations from the national governments share of revenue and proceeds of loans and grants from development partners. A total of Ksh 16.2 billion was disbursed to the County Governments as additional allocations from development partners in FY 2022/23.

Table 10: Total Transfers to County Governments from FY 2017/18 to FY 2022/23 (Ksh Million)

County Governments Own Source Revenue

26. An analysis of Own Source Revenue (OSR) growth rates over the last three financial years indicates that whereas some County Governments have made significant progress in growing their OSR, a number of Counties have dropped in their OSR collections in absolute terms as indicated in **Table 11 and Annex Table 6**.

Table 11: OSR Growth Trends from FY 2020/21 to FY 2022/23

County	FY 2020/21 Actual OSR Collection (Kshs)	FY 2021/22 Actual OSR Collection (Kshs)	FY 2022/23 Actual OSR Collection (Kshs)	FY 2021/22 OSR Growth Rate	FY 2022/23 OSR Growth Rate	Two Year Average Growth Rate
Homa Bay	120,412,567	146,642,418	491,496,550	21.8%	235.2%	128.5%

Marsabit	110,368,253	99,563,452	58,565,723	-9.8%	-41.2%	-25.5%

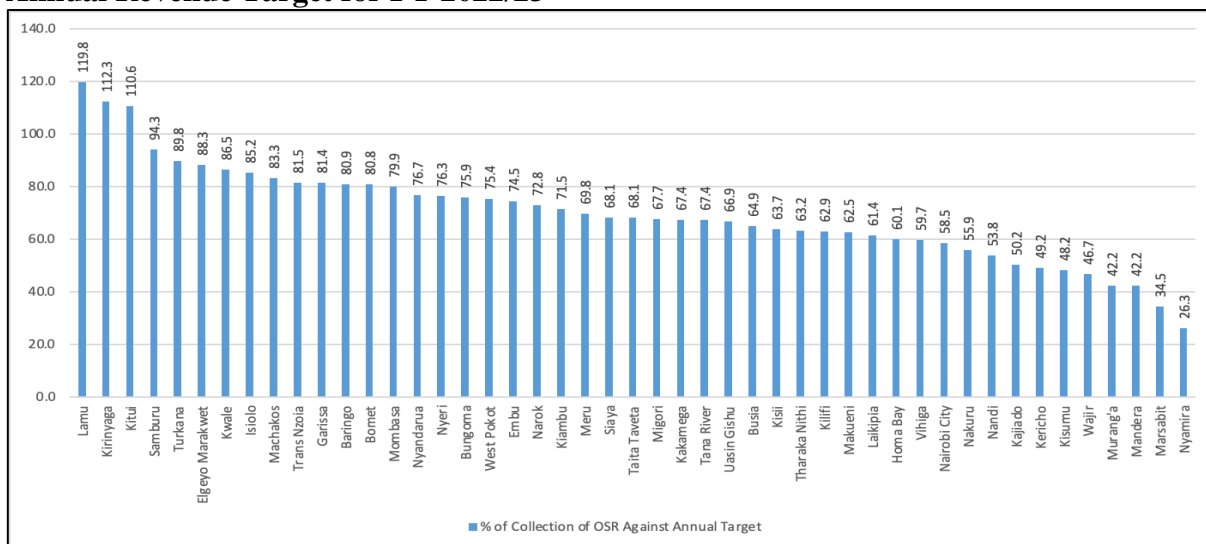

Source of Data: Controller of Budget

27. A total of 23 county governments have recorded an increase in their OSR over the last financial years with Homa Bay, Narok and Elgeyo Marakwet leading with a growth rate of 128.5%, 122.5% and 84.4% respectively. On the other hand, Wajir (-20.0%), Busia (-20.2%), and Marsabit (-25.5%) had the highest reduction in OSR collection over the same period.

Performance in OSR Against Target

28. During the FY 2022/23, the County Governments were able to raise a total of Ksh 37.8 billion from Own Source Revenue (OSR) against an annual target of Ksh 57.4 billion as shown in (Figure 1). This represents 65.9 percent of the annual OSR target in FY 2022/23.

Figure 1: Actual Revenue Collected by the County Governments as a Percentage of Annual Revenue Target for FY 2022/23

Source of Data: Controller of Budget

29. Analysis of OSR performance in the FY 2022/23 indicates that forty (40) County Governments were able to collect more than fifty percent of their annual OSR target. The top performing counties as far as OSR collected as a percentage of target is concerned were Lamu (119.8%), Kirinyaga (112.3%), Kitui (110.6%) and Samburu (94.3%) while the least performing counties were Murang'a (42.2%), Mandera (42.2%), Marsabit (34.5) and Nyamira (26.3%). However comparing the OSR performance over the years in absolute terms with the performance over the target indicates that some counties are quite conservative in setting their revenue targets. Whereas Lamu County Government overshot their target, their revenue growth rate was only 23.6% while for Homa Bay with a dismal revenue performance against target, the revenue growth was 235.2%.

30. The National Treasury notes that a number of County Governments reported revenue collection way below their target. This could be attributed to a number of factors such as lack of proper revenue administration structures, revenue leakages, lack of internal controls or unrealistic revenue targets.

31. In the medium term, the National Treasury in collaboration with stakeholders is undertaking a number of reforms to assist counties enhance revenue collection. Some of the measures include; proposal for an establishment of a Multi-Agency Taskforce on Tax Analysis and Revenue Forecasting with an aim of developing a tool for OSR Analysis and Forecasting among County Governments; review of existing legislations and automation of revenue collection and management.

32. In addition, the National Treasury is planning to build the capacity of County Governments to generate statistics that conform to the Government Finance Statistics 2014 Manual beginning in FY 2023/24. This will strengthen the County Government's fiscal policy making including realistic revenue forecasting.

33. The County Governments have not fully automated revenue collection. To further improve on revenue management, the National Treasury with the other stakeholders established a taskforce to develop guidelines for acquisition and implementation of an Integrated County Revenue Management System (ICRMS) for use by all County Governments.

34. To address the inadequacy of the existing legal framework to guide the imposition of property rates, the National Policy to Support Enhancement of the County Governments Own

Source Revenue proposed enactment of the National Rating Legislation. The National Rating Bill, 2022 was developed and is currently in Parliament for enactment into law. The Bill provides for among others, standards in the way rating and valuation is conducted in the country; how to deal with properties cross-cutting in more than one County Government; procedure for claiming and payment of Contribution in Lieu of Rates (CILOR); and timely updating of valuation rolls by the County Governments. More importantly, the Bill will repeal the outdated Valuation for Rating Act, Cap 266 and Rating Act, Cap 267 and align property rating legal regime with the devolved system of governance. The Bill further proposes that County Governments should be reviewing their valuation rolls every five years.

35. However, the foregoing revenue raising measures must be aligned with Article 209 (5) which requires that taxation and other revenue raising powers be exercised in a way that does not prejudice national economic policies, economic activities across county boundaries or the national mobility of goods, services, capital or labour. In this regard, the National Treasury with other stakeholders developed County Governments (Revenue Raising Process) Bill, 2023 which was approved by Cabinet together with the OSR Policy, provides for a process by which the County Governments introduce revenue raising measures in line with Article 209 (5) of the Constitution. Article 209 (5) of the Constitution provides that the revenue raising measures of a County Governments. The Bill was resubmitted to Parliament for enactment into law after the previous submission lapsed.

Mineral Royalty Revenue Sharing Framework

36. Mining Act, 2016 assigns 70% of mineral royalties collected from Mining companies to the National Government; 20% to County Governments; and, 10% to communities. Since 2016, County Governments and communities have not received their share of these royalties. To address this matter, Ksh 2.9 billion has been included in the County Governments Additional Allocations Bill, 2023 for sharing among 32 County Governments. In addition, disbursement of the 10 percent to the communities is awaiting the finalization of the draft Mining (Mineral Royalty Sharing) Regulations, 2023.

County Governments Expenditure

Legal Framework

37. Section 130 (1) (b) (v) of the PFM Act, 2012 requires the County Executive Committee Member for Finance to submit in the County Assembly budget estimates that include all expenditure by vote and by program clearly identifying both recurrent and development expenditure. Further, the PFM Act provides for fiscal rules which are provided as fiscal responsibility principles to be observed by County Governments in management of public finances. Specifically, PFM Act, 2012 and the PFM (County Government) Regulations, 2015 require county governments to enforce the following fiscal responsibility principles:

- i. The County Governments' recurrent expenditure shall not exceed the County Government total revenue;
- ii. In the Medium Term, a minimum of 30 percent of the County Governments budget shall be allocated to the development expenditure; and
- iii. The County Government expenditure on wages shall not exceed 35 percent of County Governments total revenue as prescribed by the County Executive Committee for Finance.

Overall Performance of Expenditures

38. The total budget for the county governments in the FY 2022/23 was Ksh 515.2 billion comprising Ksh 160.5 billion for development and Ksh 354.6 billion for recurrent expenditure.

39. The total actual expenditure by the County Governments in the FY 2022/23 was Ksh 428.9 billion of which actual expenditure on development was Ksh 98.0 billion while on recurrent was Ksh 330.9 billion (Table 12). On the other hand, the expenditure on wages was Ksh 195.1 billion. The expenditures were against actual revenue amounting to Ksh 466.0 billion.

Table 12: County Governments Total Actual Expenditure for FY 2022/23

Item	Ksh 'Billion'	% of Expenditure to Total Revenue
Total actual Revenue	466.0	100.0
Total actual Expenditure	428.9	92.0
Recurrent expenditure	330.9	71.0
Wages	195.1	41.9
Operations & Maintenance	135.8	29.2
Development Expenditure	98.0	21.0

Source of Data: Controller of Budget

Absorption rates of the Recurrent Expenditure

40. The absorption rate measures the performance of actual expenditure against the approved budget. During the period, analysis of recurrent absorption rate shows that only eight Counties had an absorption rate lower than 90%. Mombasa County Government absorbed more than its budgeted recurrent amount (Figure 2).

Figure 2: Absorption Rate of the Recurrent Expenditure for FY 2022/23

Source: Controller of Budget

Absorption rates of the Development Expenditure

41. The County Governments spent Ksh 98.0 billion on development activities, representing an absorption rate of 61.0 per cent of the annual development budget of Ksh 160.5 billion. The absorption rates of development budget per county government are indicated in Figure 3.

Figure 3: Absorption rate of the Development Expenditure for FY 2022/23

Source: Controller of Budget

42. Analysis of development expenditure as a proportion of the development budget for FY 2022/23 shows that there was no county government that attained an absorption rate above 90 per cent. The County Governments of Nairobi City, Machakos, Busia, Nakuru, Kiambu and Kisii reported below 50 per cent absorption rate on development budget while West Pokot, Mandera and Samburu performed well as shown in **Figure 3** above.

E. County Governments' Compliance with Fiscal Responsibility Principles

Recurrent Expenditure as a Percentage of Total Revenue

43. The PFM Act, 2012 requires that a County Government's recurrent expenditure shall not exceed the County Government's total revenue. In the FY 2022/23, the total recurrent expenditure for the County Governments was Ksh 330.9 billion, while the total revenue available for the County Governments was Ksh 466.0 billion, representing 71.0 percent of the total revenue (**Figure 4**). In this regard, the total recurrent expenditure was within the PFM threshold as at the end of the FY 2022/23.

Figure 4: Actual Recurrent Expenditure as a Percentage of the Total Revenue for the FY 2022/23

Source: Controller of Budget

Development Budget as a Percentage of the Total Budget

44. The combined County Governments' budgets approved by the County Assemblies for FY 2022/23 amounted to Ksh 515.2 billion that comprised of Ksh 160.5 billion (31.2 per cent) allocated to development expenditure and Ksh 354.6 billion (68.8 per cent) for recurrent expenditure. The aggregate development expenditure allocation conforms to Section 107 (2(b)) of the PFM Act, 2012, which requires that at least 30 per cent of the budget be allocated for development programmes as shown in the figure below. However, the approved budget of 14 counties, namely Kajiado, Vihiga, Kisii, Kitui, Kisumu, Mombasa, Bomet, Meru, Nandi, Wajir, Kiambu, Laikipia, Nairobi and Tharaka Nithi did not conform with the PFM Act as shown in **Figure 5**.

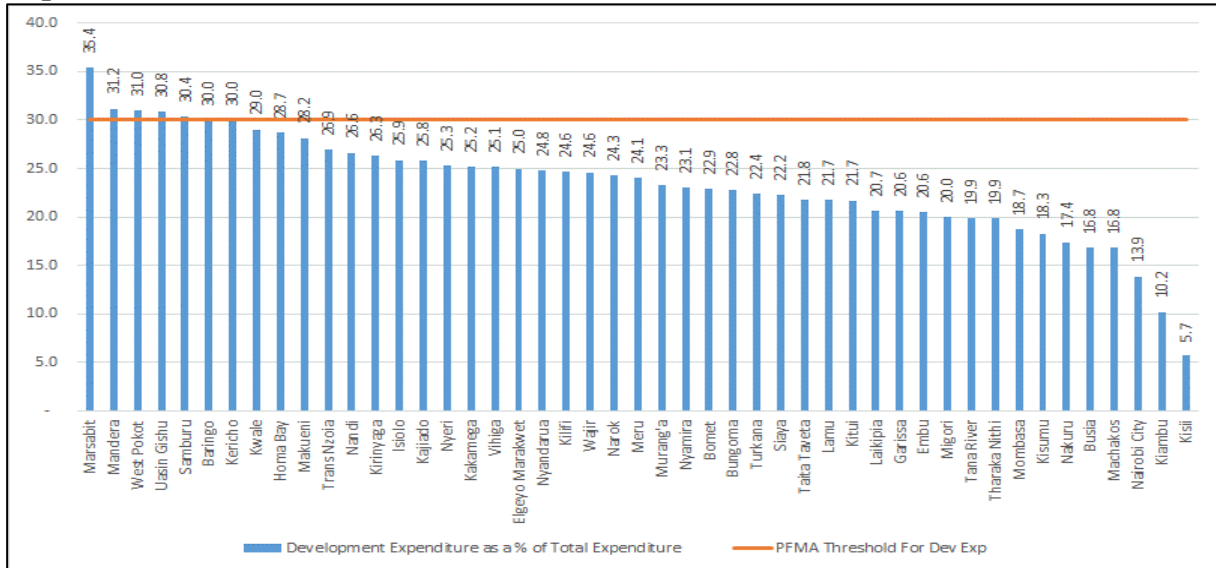

Figure 5: Budgeted Development as a percentage of the Total Budget for the FY 2022/23

Source of data: Controller of Budget

45. The total actual development expenditure in the FY 2022/23 amounted to Ksh 98.0 billion against a budget of Ksh 515.2 billion representing 19.02 per cent of the total budget. The Public Finance Management Act, 2012 Section 107(b) requires that over the medium term, a minimum of 30 per cent of each County Government's budget shall be allocated to development expenditure. Even though a number of County Governments meet this requirement as far as the approved budget is concerned, in terms of actual expenditure, only seven County Governments meet this requirement. These counties are Marsabit (35.4%), Baringo (31.2%), Uasin Gishu (31.0%), Mandera (30.8%), Kwale (30.4%), Kilifi (30.0%) and West Pokot. On other hand, Busia (16.8%), Machakos (16.8%), Nairobi City (13.9%), Kiambu (10.2%) and Kisii (5.7) spent the lowest budgets on development in the reporting period (**Figure 6**).

Figure 6: Actual Development Expenditures as a Percentage of Actual Total Expenditure for FY 2022/23

Source of Data: Controller of Budget

Expenditure on Wage bill

46. The total expenditure on wages reported by County Governments amounted to Ksh 195.1 billion in the FY 2022/2023. During the same period, the total revenue available to the County Governments was Ksh 466.0 billion. The Public Finance Management (County Government) Regulations, 2015 requires that expenditure on wages and benefits for public officers shall not exceed 35 percent of the total revenues. This means that on average County Governments spent 41.7 percent of their total revenue on wages which is higher than the threshold of 35 percent provided by the PFM Act, 2012. Within this period, only six Counties (Migori, Kilifi, Mandera, Kwale, Turkana and Tana River) were able to maintain their allocation to wages and salaries below the 35 percent threshold. It is worth noting that a lower expenditure on the wage bill does not necessarily mean that the county government has committed the expenditure to development. Only Kwale, Mandera and Kilifi of the five counties had a development expenditure of over 30 percent (Figure 7).

Figure 7: Actual Expenditures on Wages and Salaries as a Percentage of Total Revenue for the FY 2022/23

Source of Data: Controller of Budget

Pending Bills of County Governments

47. As at 30th June, 2023, County Governments reported pending bills of Ksh 164.76 billion as stated by the Controller of Budget. The County Executive reported a total of Ksh 163.1 billion while the County Assemblies reported a total of Ksh 1.7 billion as their pending bills as shown in **Table 13**.

Table 13: Pending Bills of the County Governments' as at 30th June, 2023

	Development (Ksh) (A)	Recurrent (Ksh) (B)	Total (Ksh) (C= A+B)
County Executive	31,904,907,894	131,201,401,193	163,106,309,087
County Assembly	639,429,699	1,018,933,772	1,658,363,471
Total	32,544,337,593	132,220,334,965	164,764,672,558

Source of Data: Controller of Budget

48. There is need for a comprehensive study to determine the causes of pending bills by the county governments given that at the end of the financial year, most counties are able to receive their share of disbursements for equitable share and conditional grants.

49. Based on the County Governments' fiscal performance in the FY 2022/23 outlined in the section above, County Governments are expected to put measures in place to address several challenges noted. In particular, County Governments are expected to put in place measures to address optimization of own source revenue collection; adherence to fiscal responsibility principles; and clearance of pending bills and follow due procurement processes to ensure issues on ineligible pending bills do not arise.

County Governments Public Finance Management Challenges

50. A Multi-Agency Taskforce established in 2022/23 identified challenges faced by County Governments in the management of public finance. These challenges include weak linkage between planning and budget formulation, inability of county governments to adhere to the public procurement Act resulting in high outstanding pending bills, low development budget absorption, under-performance in own-source revenue, failure to use the prescribed financial systems (such as IFMIS, IPPD among others), non-adherence to fiscal responsibility principles, pilferage of public resources due to manual systems, inadequate understanding of the Office of the Controller of Budget's role in approval of county requisitions, high wage bill, weaknesses in human resource management, weak oversight by County Assembly and a weakened internal audit function among others. Some of the solutions to address these challenges include; capacity building of county governments on planning, budgeting and revenue forecasting; adherence to the disbursement schedule on equitable share transfers by the National Government and actualization of the ICRMS.

III. MACROECONOMIC DEVELOPMENTS AND OUTLOOK

A. World Economic Outlook

51. World economic growth slowed to 3.5 percent in 2022 from a growth of 6.3 percent in 2021 as high global inflation, energy and value chain disruptions, and impact of monetary policy tightening in most world economies weighed on economic activity (**Table 14**). The growth is projected to slow down further to 3.0 percent in 2023 and 2024 due to the impact of ongoing monetary policy tightening to address inflationary pressures. Global inflationary pressures have responded to policy tightening but inflation exceeds central bank targets in most countries. Recent actions by authorities to contain banking sector challenges in the United States and Swiss Banking have reduced the immediate risk of financial sector instability. However, intensification of the conflict in Ukraine, volatility in the global oil prices and extreme weather related shocks could weigh on the global economic outlook.

Table 14: Global Economic Performance

Economy	Growth (%)			
	Actual		Projected	
	2021	2022	2023	2024
World	6.3	3.5	3.0	3.0
Advanced Economies	5.4	2.7	1.5	1.4
<i>Of which: USA</i>	5.9	2.1	1.8	1.0
<i>Euro Area</i>	5.3	3.5	0.9	1.5
Emerging and Developing Economies	6.8	4.0	4.0	4.1
<i>Of which: China</i>	8.4	3.0	5.2	4.5
<i>India</i>	9.1	7.2	6.1	6.3

Nigeria	3.6	3.3	3.2	3.0
Kenya*	7.6	4.8	5.5	5.6

Source: IMF World Economic Outlook, July 2023. *National Treasury Projection

52. Advanced economies are projected to record a slower growth of 1.5 percent in 2023 and 1.4 percent in 2024 from 2.7 percent in 2022. About 93 percent of the countries in the advanced economies are projected to have a lower growth in 2023 and 2024. This slowdown is largely driven by aggressive monetary policy tightening in advanced economies that have increased concerns about escalating financial markets uncertainty, particularly persistent high interest rates and vulnerability of the banking sector.

53. Growth in the emerging market and developing economies, is projected to be broadly stable at 4.0 percent in 2023 and 4.1 percent in 2024, although with notable shifts across regions. The sluggish global growth, high inflation rates and the challenging global and domestic financial conditions continue to weigh on the growth for sub-Saharan Africa region. The region economic growth is projected to slow down to 3.5 percent in 2023 from 3.9 percent in 2022, before picking up to 4.1 percent in 2024.

B. Kenya's Economic Performance and Outlook

54. In the 10 years pre-COVID-19 pandemic, the economic growth averaged 5.0 percent whereas in the two years post COVID-19 pandemic the growth momentum picked up to average 6.2 percent. The Kenyan economy in 2022 demonstrated resilience in the face of severe multiple

shocks that included the adverse impact of climate change, lingering effects of COVID-19, global supply chain disruption and the impact of Russia-Ukraine conflict. As such, the economic growth slowed down to 4.8 percent in 2022 from 7.6 percent in 2021.

55. In 2020, the economy received adequate rainfall that resulted in increased production in the agriculture sector growing by 4.6 percent. However, the country subsequently, experienced a severe climate related shock in the form of a severe drought that was also experienced in the Horn of Africa and the East African regions. The drought not only aggravated the inflationary pressures but also subjected millions of people to severe food insecurity, loss of lives, livelihoods and led to loss of livestock. This resulted in the contraction of the agriculture sector by 0.4 percent 2021 and 1.6 percent in 2022.

56. The performance of the industry sector slowed down to 3.5 percent in 2022 compared to a growth of 6.8 percent in 2021 on account of a slowdown in activities in the manufacturing, electricity and water supply and construction sub-sectors. In the year, services sector remained strong growing at 6.7 percent, with improved performance in information and communication, financial and insurance and professional, administrative and support services sub-sectors. There were also substantial growths in accommodation and food services, and transport and storage sub-sectors.

57. In the first quarter of 2023, real GDP growth was at 5.3 percent mainly due to a 5.8 percent recovery in the agricultural activities that reflected improved rainfall conditions and the impact of fertilizer and seed subsidies provided to the farmers by the Government (**Table 15**). The recovery in agriculture was reflected in enhanced production, especially of food crops that led to significant increase in export of vegetables and fruits.

Table 15: Sectoral GDP Performance

Sectors	2021	2022	2023 Q1
1. Primary Industry	0.5	(1.0)	5.6
1.1. Agriculture, Forestry and Fishing	(0.4)	(1.6)	5.8
1.2 Mining and Quarrying	18.0	9.3	3.3
2. Secondary Sector (Industry)	6.8	3.5	2.4
2.1. Manufacturing	7.3	2.7	2.0
2.2. Electricity and Water supply	5.6	4.9	2.3
2.3. Construction	6.7	4.1	3.1
3. Tertiary sector (Services)	9.6	6.7	6.0
3.1. Wholesale and Retail trade	8.0	3.8	5.7
3.2. Accomodation and Restaurant	52.6	26.2	21.5
3.3. Transport and Storage	7.4	5.6	6.2
3.4. Information and Communication	6.1	9.9	8.7
3.5. Financial and Insurance	11.5	12.8	5.8

Real Estate	6.7	4.5	5.2
Education	22.8	4.8	3.6
Health	8.9	4.5	5.4
Taxes less subsidies	11.9	7.0	4.4
Real GDP	7.6	4.8	5.3

Source of Data: Kenya National Bureau of Statistics

58. Manufacturing sub-sector expanded by 2.0 percent in the first quarter of 2023 mainly supported by the manufacture of food products that included bakery products and processing and preservation of fish. In the non-food manufacturing the growth performance was supported

by substantial growth in the manufacture of basic metals and fabricated metal products. Electricity and Water Supply sub-sector expanded by 2.3 percent supported by increased generation of electricity from renewable sources such as geothermal and wind that more than offset the decline in generation from hydroelectric sources. However, construction activities slowed down due to the decline in the volume of cement consumption and imports of various construction materials such as bitumen and iron and steel.

59. The activities in the services sector remained strong in the first quarter of 2023 growing by 6.0 percent largely characterized by significant growths in accommodation and food Service; information and communication technology; transportation and storage; financial and insurance; and wholesale and retail trade sub-sectors.

60. Available economic indicators in the first three quarters of 2023 remain strong with the continued recovery in the agricultural sector and sustained performance of the services sector. In this respect, economic growth is projected at 5.5 percent in 2023 and 5.7 percent in 2024 supported by broad-based private sector growth and sustained government investment in the nine priority value chains (Leather, Cotton, Dairy, Edible Oils, Tea, Rice, Blue economy, Natural Resources (including Minerals and Forestry), and Building Materials). Additionally, public sector investments in infrastructure and implementation of prudent fiscal and monetary policies will continue to support economic activity (**Figure 8**).

Figure 8: Annual Real GDP Growth Rates, percent

Source of Data: Kenya National Bureau of Statistics

Inflation Developments

61. Inflation remained above the Government target range of 5±2.5 percent from June 2022 to June 2023. In order to anchor inflation expectations and bring down inflation within the target range, the Monetary Policy Committee (MPC) gradually raised the policy rate (Central Bank Rate (CBR)) from 7.50 percent in May 2022 to 10.50 percent in June 2023. The MPC retained the 10.50 percent in August 2023. Consequently, inflation declined significantly to 6.7 percent in August 2023, from a peak of 9.6 percent in October 2022. The decline largely reflects the easing of food prices and impact of monetary policy tightening (**Figure 9**).

62. Food inflation remained the dominant driver of overall inflation in August 2023. However, it declined to 7.5 percent in August 2023 from a peak of 15.0 percent in August 2022 reflecting easing of food prices arising from increased supply due to ongoing harvests, seasonally factors,

international developments and Government measures on zero rated imports. Nonetheless, sugar prices remained elevated driven by domestic and global factors.

63. Fuel inflation remained elevated driven by high energy prices. It increased to 14.2 percent in August 2023 from 8.6 percent in August 2022. The increase reflects gradual withdraw of the fuel subsidize from September 2022 and the upward adjustment of electricity tariff from April 2023. In addition, the upward adjustment of VAT on petroleum product in July 2023 from 8.0 percent to 16.0 percent exacted upward pressures on prices. However, prices of cooking gas continued to decline and moderated inflation reflecting the impact of the zero-rating of VAT on liquefied petroleum gas (LPG).

64. Core (non-food non-fuel) inflation increased from 3.2 percent in August 2022, to a peak of 4.4 percent in March 2023, and has declined to 3.7 percent in August 2023. The decline is attributed to the contractionary monetary policy aimed at taming the spillover effects of high energy prices.

Figure 9: Inflation Rate, Percent

Source of Data: Kenya National Bureau of Statistics

Monetary and Credit Developments

65. Broad money supply, M3, grew by 14.3 percent in the year to July 2023 compared to a growth of 7.6 percent in the year to July 2022 (Table 16). The primary source of the increase in M3 was an improvement in the Net Foreign Assets (NFA) and Net Domestic Assets (NDA) of the banking system. the NFA of the banking system in the year to July 2023 expanded by 56.6 percent compared to a contraction of 46.8 percent in the year to July 2022. The increase in net foreign assets, mainly reflected increase in commercial banks’ foreign assets.

66. Net Domestic Assets (NDA) registered a growth of 10.2 percent in the year to July 2023, compared to a growth of 19.5 percent over a similar period in 2022. The growth in NDA was mainly supported by increase in domestic credit particularly resilient private sector credit and net lending to government. Growth of domestic credit extended by the banking system to the Government declined to a growth of 16.1 percent in the year to July 2023 compared to a growth of 25.4 percent in the year to July 2022. Lending to other public sector grew by 16.7 percent in the year to July 2023 mainly due to advances to parastatals.

Source of Data: Central Bank of Kenya

67. Growth in private sector credit from the banking system remained resilient as business activities improved and grew by 10.3 percent in the year to July 2023 compared to a growth of 14.2 percent in the year to July 2022 (**Figure 8**). Improved credit expansion was registered in various sub-sectors that include finance and insurance, mining, transport and communication, agriculture and manufacturing. On a monthly basis, credit extension contracted by 8.5 percent in the year to July 2023 reflecting further tightening of the monetary policy in June 2023.

Figure 10: Private Sector Credit

Source of Data: Central Bank of Kenya

Interest Rates Developments

68. Reflecting the tight monetary policy stance, interest rates increased in the year to August 2023. The interbank rate increased to 12.5 percent in August 2023 compared to 5.4 percent in

August 2022 while the 91-day Treasury Bills rate increased to 13.4 percent compared to 8.6 percent over the same period (**Figure 9**). The 182-day Treasury Bills rate increased to 13.4 percent in August 2023 from 9.5 percent in August 2022 while the 364-day also increased to 13.6 percent from 9.9 percent over the same period. The introduction of the interest rate corridor, in August 2023, is expected to align the interbank rate to the Central Bank Rate and thereby improve the transmission of the monetary policy.

Figure 11: Short Term Interest Rates, Percent

Source of Data: Central Bank of Kenya

69. Commercial banks average lending and deposit rates increased in the year to June 2023 in tandem with the tightening of the monetary policy stance. The average lending rate increased to 13.3 percent in June 2023 from 12.3 percent in June 2022 while the average deposit rate increased to 7.8 percent from 6.6 percent over the same period. Consequently, the average interest rate spread declined to 5.5 percent in June 2023 from 5.7 percent in June 2022 (**Figure 12**).

Figure 12: Commercial Bank Rates, Percent

Source of Data: Central Bank of Kenya

External Sector Developments

70. The current account balance narrowed by 20.6 percent to US\$ 4,629.4 million (4.4 percent of GDP) in June 2023 from US\$5,833.9 million (5.1 percent of GDP) in June 2022, reflecting lower imports, strong performance of export of goods and services as well as increased remittances (**Table 17**). Improvement in trade and the continued recovery in tourism continues to boost export revenues in 2023. In the year to June 2023, exports grew by 2.1 percent primarily driven by improved receipts from tea and manufactured goods. The increase in receipts from tea exports reflects higher prices attributed to lower global supply due to drought amid resilient demand from traditional markets.

71. The continued recovery in tourism sector saw the number of tourists increase by 25.2 percent in the year to June 2023 and travel and transportation services receipts increased by 24.2 percent during the same period. Growth in imports decelerated by 6.1 percent in the 12 months to June 2023, as oil prices moderated and reduced imports for infrastructure related equipment. In this respect, the balance in the merchandise account improved by USD 1,316.3 million to a deficit of USD 10,678.0 million in June 2023. Receipts from remittances remained resilient and amounted to USD 4,017 million in the 12 months to June 2023, and were 0.1 percent higher compared to a similar period in 2022.

Table 17: Balance of Payments (USD Million)

				Year to June 2023		Percent of GDP

Source of Data: Central Bank of Kenya

72. The capital account balance improved by USD 28.1 million to register a surplus of USD 189.7 million in June 2023 compared to a surplus of USD 161.6 million in the similar period in 2022. Net financial inflows slowed down but remained vibrant at USD 4,061.5 million in June 2023 compared to USD 4,746.6 million in June 2022. The net financial inflows were mainly in the form of other investments, financial derivatives and direct investments. Portfolio investments registered a net outflow during the period.

73. The overall balance of payments was a surplus of USD 1,113.5 million (1.1 percent of GDP) in June 2023 from a surplus of USD 1,555.5 million (1.4 percent of GDP) in June 2022 (**Figure 13**).

Figure 13: Performance of Balance of Payments and its Components (Percent of GDP)

Source of Data: Central Bank of Kenya

Foreign Exchange Reserves

74. The banking system’s foreign exchange holdings remained strong at USD 13,165.6 million in June 2023, an improvement from USD 12,580.6 million in June 2022. The official foreign exchange reserves held by the Central Bank stood at USD 8,036.7 million compared to USD 8,494.9 million over the same period (**Figure 14**). Commercial banks holdings improved to USD 5,128.8 million in June 2023 from USD 4,085.6 million in June 2022.

75. The official reserves in June 2023 represented 4.4 months of import cover as compared to the 4.9 months of import cover in June 2022. These reserves were above the minimum of 4.0 months of imports cover and provides adequate buffer against short-term shocks in the foreign exchange market.

Figure 14: Foreign Exchange Reserves (USD Million)

Source of Data: Central Bank of Kenya

Exchange Rate Developments

76. The Kenyan foreign exchange market remained under pressure as global economic uncertainty regarding the ongoing Russian-Ukraine conflict as well as increase in interest rates in advanced economies in response to inflationary pressures weighted on the exchange rate. Specifically, the headwind from a strengthening dollar, boosted by rising US interest rates and

elevated commodity prices, the exchange rate to the Kenya shilling weakened at a rate of 20.5 percent in the 12 months to August 2023 compared to 9.3 percent in the 12 months to August 2022. The Kenya shilling exchanged at Ksh 143.9 in August 2023 compared to Ksh 119.5 in August 2022. Against the Euro, the Kenya shilling weakened to exchange at Ksh 157.1 in August 2023 compared to Ksh 121.0 in August 2022 while against the Sterling Pound the Kenyan shilling weakened to exchange at Ksh 182.9 compared to Ksh 143.5, over the same period (Figure 15). The Kenyan shilling was supported by increased remittances, adequate foreign exchange reserves and improved exports receipts.

Figure 15: Kenya Shillings Exchange Rate

Source of Data: Central Bank of Kenya

Capital Markets Developments

77. Activity in the capital markets slowed down in August 2023 compared to August 2022 as advanced economies tightened their monetary policy amid inflationary pressures. The NSE 20 Share Index declined to 1,540 points in August 2023 compared to 1,751 points in August 2022 while Market capitalization declined to KSh 1,545 billion from KSh 2,142 billion over the same period (Figure 16).

Figure 16: Performance of the Nairobi Securities Exchange

Source of Data: Nairobi Securities Exchange

C. Kenya's Macroeconomic Outlook

78. Kenya's economic performance is projected to remain strong and resilient over the medium term (**Table 18 in calendar years and Annex Table 1 in fiscal years**). The economy recorded a strong growth of 5.3 percent in the first quarter reflecting a strong recovery in agriculture sector and buoyant services sector including financial and insurance, information and communication, wholesale and retail trade and transport and storage. The economy is expected to remain strong and expand by 5.5 percent in 2023 (5.6 percent in FY 2023/24) and 5.7 percent in 2024 (5.9 percent in FY 2024/25).

79. This growth will be supported by the strong recovery in agriculture and resilient services sector that both drive the industrial sector. The adequate rainfall during the long rain season in most parts of the country and the anticipated short rains later in 2023 will continue to support activities in the agriculture, electricity, and water supply sectors. The improved availability of raw materials following the recovery in agriculture and a decline in global commodity prices will support food processing in the manufacturing sector. Additionally, activities in the construction sector will be boosted by the affordable housing programme. Services sector will be supported by resilient activities in the financial and insurance, information and communication, wholesale and retail trade and transport and storage, among others. The easing of global commodity prices and supply chain constraints coupled with robust private sector investment are expected to support domestic demand.

80. On the demand side, private consumption is expected to remain on a robust growth path in the near term. The easing of inflationary pressures will result in strong household disposable income, which in turn will support household consumption. The interventions by the Government through the Financial inclusion initiative popularly known as the Hustlers Fund will strengthen MSMEs thereby correcting market failures for the vast majority of Kenya's at the bottom of the pyramid. This will strengthen the private sector led growth opportunities. The multi-year fiscal consolidation program by the Government has been incorporated in the projections and is expected to lower the fiscal deficit and achieve a positive primary balance over the medium term. This will reduce debt vulnerabilities and strengthen debt sustainability and lead to improvement in investors' confidence, leading to robust private investment and economic growth over the medium term. The lower domestic financing needs of the Government, will enable the expanded lending to the private sector by the banking sector.

81. The development spending in the budget will be retained at an average of 5.6 percent of GDP so as not to impact on growth momentum. This will enhance Government investment in the nine priority value chains (Leather, Cotton, Dairy, Edible Oils, Tea, Rice, Blue economy, Natural Resources (including Minerals and Forestry), and Building Materials). Additionally, it will support investments in key projects under the Bottom-Up Economic Transformation Agenda (BETA) including construction of dams, improvement of road networks and ports and laying of additional National Fiber Optic network. Enhanced digitalization, is expected to improve efficiency and productivity in the economy. In particular, investment in digital superhighway will result in enhanced connectivity and access to broadband services which will lower the cost of doing business, enhance efficiency and create employment opportunity.

82. Kenya's exports of goods and services is expected to continue strengthening supported by receipts from tourism and implementation of crops and livestock value chains, specifically, exports of tea, coffee, vegetables and fresh horticultural produce, among others. The expected recovery of Kenya's trading partners and the implementation of Africa Continental Free Trade Area (AfCFTA) will enhance demand for exports of Kenyan manufactured products. Current account deficit will average 5.4 percent of GDP between 2023 and 2027. The projected robust domestic demand sustained by private investment, will sustain imports of raw materials,

machinery and equipment for private construction, and household consumption. In addition, global oil price continues to stabilize lowering the oil import bill. In the Balance of Payments Statement, external financing needs will be met mainly by equity inflows and foreign direct investment given the conducive business climate that Government has created particularly the fiscal policy predictability. Improvement in the current account, boosted by robust export earnings and strong remittance inflows will continue to support stability in the foreign exchange market.

Monetary Policy Management

83. The monetary policy stance is aimed at achieving price stability and providing adequate credit to support economic activity. Consequently, overall inflation is expected to remain within the Government target range of 5 ± 2.5 percent in the medium term. This will be supported by muted demand pressures consistent with prudent monetary policy and easing domestic and global food prices. In addition, Government measures to support sufficient supply of staple food items through zero rated imports and lower the cost of production through the ongoing fertilizer and seeds subsidy program will exact downward pressure on inflation.

84. The Central Bank has continued to implement reforms to Modernize its Monetary Policy Framework and Operations in Kenya, designed to enhance monetary policy transmission. In particular, CBK has implemented a new monetary policy framework based on inflation targeting. To facilitate alignment of the short term rates with the Central Bank Rate (CBR), reduce volatility in the interbank rate and improve monetary policy transmission, CBK has implemented an interest rate corridor. The interest rate corridor is set at ± 250 basis points around the CBR. In addition, the CBK has reduced the applicable interest rate to the Discount Window from 600 basis points to 400 basis points above CBR to improve access to the Window.

85. The Central Bank has also introduced DhowCSD, an upgraded Central Securities Depository infrastructure, that offers a simple, efficient, and secure portal by the Central Bank of Kenya (CBK) to enable the public to invest in Government of Kenya securities. The platform enables investors to participate and trade in Government securities market (Treasury Bills and Bonds) on their mobile phones and on web based devices. The DhowCSD will transform Kenya's financial markets through enhanced operational efficiency and expansion of digital access, market deepening for broader financial inclusion, and improved monetary policy operations. Additionally, the DhowCSD will also improve the functioning of the interbank market by facilitating collateralized lending amongst commercial banks and further reduce segmentation in the interbank market.

Risks to the economic outlook

86. There are down side risks to this macroeconomic outlook emanating from domestic as well as external sources. On the domestic front, risks relate to unpredictable weather conditions due to the impact of climate change which could adversely affect agricultural production and result to domestic inflationary pressures and food insecurity.

87. On the external front, uncertainties in the global economic outlook stemming from the current geopolitical tension could result in higher commodity prices and slowdown the global economic recovery which could impact on the domestic economy. Weaker global demand could adversely affect the Kenya's exports, foreign direct investments and remittances. Additionally, high international commodity prices pose a risk to global and domestic inflation outcomes which could lead to further tightening of financial conditions. Continued strengthening of US dollar against other global currencies arising from aggressive monetary policy tightening present significant risks to financial flows and puts pressures on the exchange rate with implication to growth and inflation.

88. Upside risks are mostly linked to early easing of global financing conditions and lower international fuel and food prices, which would strengthen Kenya's external balances. This will be reinforced by faster than projected rebound in economic activities that would result in higher Government revenues providing fiscal space that would support fiscal consolidation. Optimal coordination between monetary and fiscal policies are expected to result to a stable macroeconomic conditions which is a necessary condition for investment and savings thereby promoting economic growth.

DRAFT 2023

IV. RESOURCE ALLOCATION FRAMEWORK

A. Implementation of the FY 2023/24 Budget

89. Budget implementation during the first two months of the FY 2023/24 has progressed well. Total revenues amounted to Ksh 351.3 billion (2.2 percent of GDP) in August 2023 against a target of Ksh 410 billion implying a performance rate of 85.6 percent. Total expenditure for August 2023 was Ksh 415.9 billion and was below target of Ksh 546.7 billion by Ksh 130.8 billion. There are expenditure pressures arising from FY 2022/23 carryovers amounting to Ksh 77.5 billion which may necessitate revision of the budget to cater for emerging expenditure pressures. The Government has however affirmed its strong commitment to its fiscal consolidation plan. The fiscal deficit for FY 2023/24 is now targeted at 5.4 percent of GDP, a decline from the deficit of 5.6 percent of GDP in the FY 2022/23.

90. Total revenues for the FY 2023/24 are projected at Ksh 3,002.5 billion (18.6 percent GDP) with ordinary revenues projected at Ksh 2,571.4 billion (15.9 percent of GDP). Total expenditures are projected at Ksh 3,908.7 billion (24.2 percent of GDP) with recurrent expenditures projected at Ksh 2,682.4 billion (16.6 percent of GDP), development expenditures are projected at Ksh 793.8 billion (4.9 percent of GDP) and an allocation of Ksh 2.8 billion to Contingency Fund. Transfer to County Governments is projected at Ksh 429.7 billion (2.7 percent of GDP). The resulting fiscal deficit inclusive of grants of Ksh 864.0 billion (5.4 percent of GDP) will be financed by a net external financing of Ksh 448.7 billion and a net domestic financing of Ksh 415.3 billion (**Annex Table 2 and 3**).

B. Fiscal Policy for FY 2024/25 and Medium Term Budget

91. The fiscal policy stance in the FY 2024/25 and over the medium term aims at supporting the priority programmes of the Government under the Bottom - Up Economic Transformation Agenda (BETA) and the MTP IV through a growth friendly fiscal consolidation plan designed to slow down the annual growth in public debt and implement an effective liability management strategy, without compromising service delivery to citizens. This is expected to boost the country's debt sustainability position and ensure that Kenya's development agenda honors the principle of inter-generational equity.

92. Towards this end, emphasis will be placed on aggressive revenue mobilization through a combination of tax administrative and tax policy reforms. In this regard, the Government will implement the National Tax Policy which will guide taxation process in Kenya. The Government will also finalize development of the Medium Term Revenue Strategy for the period 2023/24 to 2026/27 which will provide a comprehensive framework for guiding tax reforms in the medium term. Further, there is continuous effort to reform, modernize and simplify tax laws and processes to enhance compliance and expand the tax base. The Kenya Revenue Authority will continue to employ the use of technology to curb revenue leakages including use of scanners; enhancements of iTax and Integrated Customs Management System (iCMS); and full roll out of e-TIMS.

93. On the other hand, the Government will sustain efforts to improve efficiency in public spending and ensure value for money by: eliminating non priority expenditures; rationalizing tax expenditures; scaling up the use of Public Private Partnerships financing for commercially viable projects; and rolling out an end-to-end e-procurement system. In order to ease the burden of pension payments, the Government will continue with implementation of the Super Annuation Scheme for civil servants below the age of 45 years that was rolled out in January 2021.

94. The above reforms on the revenue and expenditure, will result in a gradual decline in the overall fiscal deficit is expected from 5.6 percent of GDP in FY 2022/23 to 5.4 percent of GDP

in FY 2023/24 and further to 4.4 percent of GDP in FY 2024/25 (**Annex Table 2 and 3**). This will boost the country's debt position and ensure the country's development agenda is sustainably funded.

FY 2024/25 Fiscal Projections

95. In the FY 2024/25 total revenue including Appropriation-in-Aid (A-i-A) is projected at Ksh 3,387.9 billion (18.8 percent of GDP). Of this, ordinary revenue is projected at Ksh 2,898.9 billion (16.1 percent of GDP). This revenue performance will be underpinned by the on-going reforms in policy and revenue administration. The overall expenditure and net lending is projected at Ksh 4,238.1 billion (23.5 percent of GDP) comprising: recurrent expenditure of Ksh 2,819.8 billion (15.7 percent of GDP); development expenditure of Ksh 968.5 billion (5.4 percent of GDP); transfer to Counties of Ksh 444.8 billion and Contingency Fund of Ksh 5.0 billion, respectively.

96. The resulting fiscal deficit of Ksh 800.9 billion (4.4 percent of GDP) in FY 2024/25 will be financed by a net external financing of Ksh 296.5 billion (1.6 percent of GDP) and a net domestic financing of Ksh 504.3 billion (2.8 percent of GDP).

Medium Term Fiscal Projections

97. Over the medium term, the Government's total revenue including A-i-A is projected to rise from 18.8 percent of GDP in the FY 2024/25 to 19.2 percent of GDP in FY 2025/26 and further to 19.7 percent of GDP in the FY 2026/27. Total expenditure is projected at 23.5 percent of GDP in the FY 2024/25; 23.1 percent of GDP in FY 2025/26 to ; and 23.3 percent of GDP in the FY 2026/27. Of the total expenditures, recurrent expenditure is projected at 15.7 percent of GDP in the FY 2024/25; 15.1 percent of GDP in the FY 2025/26 and 15.2 percent of GDP in the FY 2026/27. Development and net lending expenditures are expected to remain stable at around 5.0 percent of GDP over the medium term.

98. In line with the fiscal consolidation plan, the overall fiscal deficit is projected to decline from 4.4 percent of GDP in the FY2024/25 to 3.7 percent of GDP in the FY 2025/26 and further to 3.3 percent of GDP in the FY 2026/27 (**Annex Table 2 and 3**). This is intended to significantly improve Kenya's debt sustainability position.

C. FY 2024/25 and Medium-Term Budget Framework

99. The FY 2024/25 and the Medium Term Framework will focus on the implementation of the Bottom-up Economic Transformation Agenda (BETA) as prioritized in the Medium Term Plan (MTP) IV. The Agenda is geared towards economic turnaround and inclusive growth, and aims to increase investments in the five core pillars envisaged to have the largest impact to the economy as well as on household welfare. These include: Agricultural Transformation and Inclusive Growth; Micro, Small and Medium Enterprise (MSME); Housing and Settlement; Healthcare; and Digital Superhighway and Creative Industry. Implementation of these priority programmes aims at bringing down the cost of living; eradicating hunger; creating jobs; and provide the greater majority of our citizens with much needed social security while expanding the tax revenue base and improving foreign exchange balance.

100. To achieve the pillars, the Government will implement strategic interventions under the following key enablers: Infrastructure; Manufacturing; Blue Economy; the Services Economy, Environment and Climate Change; Education and Training; Women Agenda; Youth Empowerment and Development Agenda; Social Protection; Sports, Culture and Arts; and Governance.

Criteria for Resource Allocation

101. The resource allocation for the priority programmes will be done through a value chain approach under five clusters namely: Finance and Production Economy; Infrastructure; Land and Natural Resources; Social Sectors; and Governance and Public Administration. The nine (9) identified key value chain areas for implementation include: Leather; Cotton; Dairy; Edible Oils; Tea; Rice; Blue Economy; Natural Resources (including Minerals and Forestry); and Building Materials. This process ensures there is no break in the cycle in the resource allocations for a value chain. The process also ensures adequate resources are allocated to any entity along the value chain and helps to eliminate duplication of roles and budgeting of resources. Spending in these critical needs are aimed at achieving quality outputs and outcomes with optimum utilization of resources.

102. Further, the MDAs will be encouraged to adopt efficiency in allocation of resources through cost budgeting and reviewing the portfolio of externally funded projects. The MDAs will also encouraged to restructure and re-align with the Government priority programmes. Realization of these objectives will be achieved within the budget ceilings provided in this BROP. The following criteria will serve as a guide for allocating resources:

- i. Linkage of programmes with the value chains of the Bottom-Up Economic Transformation Agenda priorities;
- ii. Linkage of the programme with the priorities of Medium-Term Plan IV of the Vision 2030;
- iii. Linkage of programmes that support mitigation and adaptation of climate change;
- iv. Completion of ongoing projects, viable stalled projects and payment of verified pending bills;
- v. Degree to which a programme addresses job creation and poverty reduction;
- vi. Degree to which a programme addresses the core mandate of the MDAs;
- vii. Cost effectiveness, efficiency and sustainability of the programme; and
- viii. Requirements for furtherance and implementation of the Constitution.

103. Reflecting on the above, the Medium-Term Expenditure Framework provided in **Table 19 and Annex Table 4** will guide resource allocation into the medium term.

104. To facilitate the finalization and approval of the 2023 BROP and other policy documents within the stipulated timelines, MDAs are required to strictly undertake the activities outlined in the Budget Calendar within the set timeframes. The Budget Calendar provided in **Annex Table 5** outlines the timeframes for delivery of policy documents, reports and relevant Bills.

D. Public Participation and Involvement of Stakeholders

105. As required by the Public Finance Management (PFM) Act, 2012 this Budget Review and Outlook Paper has been shared with various stakeholders and the public for comments before its finalization. Specifically, the document has been reviewed and finalized during a retreat of the Macro Working Group in Naivasha from 6th to 13th September, 2023 that brought together 36 Officers of the Macro Working Group from the following institutions: various Departments of The National Treasury, the State Department of Economic Planning, the Central Bank of Kenya, the Kenya Revenue Authority, the Kenya Institute of Public Policy Research Analysis and the Commission on Revenue Allocation. **Annex Table 7** provides a list of officers from the Macro Working who attended the retreat.

V. CONCLUSION AND NEXT STEPS

106. Global economic outlook remains uncertain reflecting the impact of the tightening of monetary policy and escalation of geopolitical tensions particularly the ongoing war in Ukraine. Consequently, the global growth is projected to slow down to 3.0 percent in 2023 and 2024 from 3.5 percent in 2022. Kenya's economic performance is projected to remain strong and resilient over the medium term. The economy recorded a strong growth of 5.3 percent in the first quarter reflecting a strong recovery in agriculture sector and buoyant services sector including financial and insurance, information and communication, wholesale and retail trade and transport and storage. The economy is expected to remain strong and expand by 5.5 percent in 2023 (5.6 percent in FY 2023/24) and 5.7 percent in 2024 (5.9 percent in FY 2024/25). The growth outlook will be supported by broad-based private sector growth, resilient services sector, the rebound in agriculture. The growth outlook will be reinforced by implementation of policies and reforms under the priority sectors of the Bottom - Up Economic Transformation Agenda geared towards economic turnaround and inclusive growth.

107. The fiscal performance in the FY 2022/23 was positive with total revenue collection growing by 7.3 percent and amounting to Ksh 2,360.5 billion. This was a performance of 95.4 percent against the target. The positive growth in revenue was recorded in all tax revenue categories, an indication of continued recovery in revenue collection. The implementation of FY 2023/24 has started in earnest and we are looking forward to the smooth implementation of planned programmes during the remainder of the financial year. Towards this end, the Government will continue to pursue its growth friendly fiscal consolidation plan that will signal debt sustainability and manageable fiscal gap. The plan will see a gradual decline in the fiscal deficit from 5.4 percent of GDP in the FY 2023/24 to 4.4 percent of GDP in the FY 2024/25 and further to 3.6 percent of GDP in the FY 2026/27. This will be supported by enhanced revenue mobilization, reprioritization and rationalization of expenditures but above all grow the tax base through an appropriate tax regime. This will ultimately reduce public debt and create fiscal space over the medium term to finance priority capital projects.

108. In the FY 2024/25 budget, all the spending units are expected to lay emphasis on the priority programmes under the BETA by increasing investments in Agricultural Transformation and Inclusive Growth; Micro, Small and Medium Enterprise (MSME); Housing and Settlement; Healthcare; and Digital Superhighway and Creative Industry. The budgeting for the FY 2023/24, as stated in the 2023 Budget Policy Statement will strictly be through a value chain under five clusters, namely, Finance and Production Economy; Infrastructure; Land and Natural Resource; Social Sectors; and Governance and Public Administration. This will ensure adequate resources are directed towards the nine value chains, namely, (i) Leather; (ii) Cotton; (iii) Dairy; (iv) Edible Oils; (v) Tea; (vi) Rice; (vii) Blue Economy; (viii) Natural Resources Including Minerals & Forestry); and (ix) Building Materials that are under implementation in the FY 2023/24 budget.

109. Given the limited resources, the Sector Working Groups (SWGs) and Government Ministries, Departments and Agencies (MDAs) are therefore directed to critically review, evaluate and prioritize all budget allocations to strictly achieve the BETA priorities. The hard sector ceilings provided for the FY 2024/25 budget and the Medium Term will form the basis of allocations. The sector ceilings will guide the development of sector budget proposal which will form inputs into the 2024 Budget Policy Statement

DRAFT

Annex Table 5: Budget Calendar for the FY 2024/25 Medium-Term Budget

Activity	Responsibility	FY2024/25
		Timeline
1. Develop and issue MTEF guidelines	National Treasury	4-Aug-23
2. Launch of Sector Working Groups	National Treasury	18-Aug-23
3. Programme Performance & Strategic Reviews	MDAs	31-Aug-23
3.1 Review and update of strategic plans	"	"
3.2 Review of programme outputs and outcomes	"	"
3.3 Review of Expenditure	"	"
3.4 Review and approval of projects for FY2023/24	Project Committees	"
3.5 Progress report on MTP implementation	"	"
3.6 Preparation of annual plans	"	"
4. Development of Medium-Term Budget Framework	Macro Working Group	30-Sep-23
4.1 Estimation of Resource Envelope	"	"
4.2 Determination of policy priorities	"	"
4.3 Preliminary resource allocation to Sectors, Parliament, Judiciary & Counties	"	"
4.4 Draft Budget Review and Outlook Paper (BROP)	"	"
4.5 Approval of BROP by Cabinet	"	13-Oct-23
4.6 Submission of approved BROP to Parliament	"	23-Oct-23
5. Preparation of MTEF budget proposals	Line Ministries	28-Nov-23
5.1 Retreats to draft Sector Reports	Sector Working Group	22nd Oct -4th Nov & 5th - 18th Nov -23
5.2 Public Sector Hearing	National Treasury	27th Nov 23
5.3 Review and incorporation of stakeholder inputs in the Sector proposals	Sector Working Group	4-Dec-23
5.4 Submission of Sector Report to Treasury	Sector Chairpersons	6-Dec-23
5.5 Consultative meeting with CSs/PSs on Sector Budget proposals	National Treasury	11-Dec-23
6. Draft Budget Policy Statement (BPS)	Macro Working Group	14-Feb-23
6.1 Draft BPS	Macro Working Group	15-Dec-23
6.2 Division of Revenue Bill (DORB)	National Treasury	"
6.3 County Allocation of Revenue Bill (CARB)	National Treasury	"
6.4 County Governments' Additional Allocation Bill (CGAAB)	National Treasury	"
6.5 Submission of BPS, DORB, CARB and CGAAB to Cabinet for approval	National Treasury	12-Jan-24
6.6 Submission of BPS, DORB, CARB and CGAAB to Parliament for approval	National Treasury	15-Feb-24
7. Preparation and approval of Final MDAs Budgets		29-Apr-24
7.1 Develop and issue final guidelines on preparation of 2023/24 MTEF Budget	National Treasury	5-Mar-24
7.2 Submission of Budget Proposals to Treasury	Line Ministries	15-Mar-24
7.3 Consolidation of the Draft Budget Estimates	National Treasury	1-Apr-24
7.4 Submission to Cabinet for Approval	National Treasury	15-Apr-24
7.5 Submission of Draft Budget Estimates to Parliament	National Treasury	29-Apr-24
7.6 Submission of the Finance Bill	National Treasury	29-Apr-24
7.7 Review of Draft Budget Estimates by Parliament	National Assembly	15-May-24
7.8 Report on Draft Budget Estimates from Parliament	National Assembly	31-May-24
7.9 Consolidation of the Final Budget Estimates	National Treasury	7-Jun-24
7.10 Submission of Appropriation Bill to Parliament	National Treasury	10-Jun-24
8. Budget Statement	National Treasury	13-Jun-24
9. Appropriation Bill Passed	National Assembly	30-Jun-24
10. Finance Bill Passed	National Assembly	30-Jun-24
