## **PART ONE: CORPORATE REPORT**

### **2. KEY ENTITY INFORMATION AND MANAGEMENT**

#### **(a) Background information**

Ewaso Ng'iro South River Basin Development Authority was formed in 1989 by an Act of Parliament CAP 447 of the Laws of Kenya. The Authority's headquarters is at Narok Town in the Republic of Kenya. Its operations are spread out across 4 (four) Counties of its jurisdiction, that is, Narok, Kajiado, parts of Nakuru and Nyandarua. To ensure effectiveness and efficiency of operations, the Authority has established sub-basin offices in the respective Counties namely; the Mara Sub-basin in Kilgoris, Narok County, the Njoro Sub-basin in Nakuru County, Malewa Sub-basin in Nyandarua County, Olkejuado Sub-basin, Noolturesh Sub-basin in Kajiado County and Nairobi Liaison office.

#### **(b) Principal Activities**

##### **Mandate**

The Authority's broad mandate is to plan and coordinate the implementation of development projects in the Ewaso Ng'iro River Basin and catchment areas. In order to realize this mandate, the Authority's fundamental goal is to promote, implement and coordinate integrated, sustainable and equitable socio-economic development within the Ewaso Ng'iro River Basin, as well as related catchments and basins under its jurisdiction, namely, the Mau Water Catchment, Njoro River Basin, Malewa River Basin, Olkejuado River Basin, Mara Basin and Noolturesh River Basin.

##### **Functions of the Authority**

The functions of the Authority under the Act are outlined below: -

1. To plan for the development of the Area and initiate project activities identified from such planning in the Area through the Government generally;
2. To develop an up-to-date long-range development plan for the Area;
3. To initiate such studies, and carry out such surveys, of the Area as may be considered necessary by the Government or the Authority, and assess alternative demands within the Area on the natural resources thereof, and to initiate, operate or implement such projects as may be necessary to exploit those natural resources including agriculture (both irrigated and rain fed) forestry, or wildlife and tourism industries, electric power generation, mining, and fishing, and to recommend economic priorities.
4. To co-ordinate the various studies of schemes within the Area such that human, water, animal, land and other resources are utilized to the best advantage and to monitor the design and execution of planned projects within the Area;

**Ewaso Ng'iro South River Basin Development Authority**  
**Annual Corporate Reports and Financial Statements**  
**For the year ended June 30, 2023**

---

5. To affect a programme of both monitoring and evaluating the performance of projects within the Area so as to improve such performance and establish a responsibility thereof, and to improve future planning;
6. To co-ordinate the present abstraction and use of natural resources, especially water, within the Area and to set up an effective monitoring of abstraction and usage;
7. To cause and effect the construction of any works deemed necessary for the protection and utilization of the water and soils of the Area;
8. To ensure that landowners in the Area undertake all the measures specified by the Authority to protect the water and soils of the Area;
9. To identify, collect, collate and correlate all such data related to the use of the water and other resources and also economic and related activities within the Area as may be necessary for the efficient forward planning of the Area;
10. To maintain a liaison between the Government, the private sector and other interested agencies in the matter of the development of the Area with a view to limiting the duplication of effort and to ensuring the best use of the available technical resources;
11. To examine the hydrological and ecological effects of the development programmes and evaluate how they affect the economic activities of the persons dependent on river environment; and
12. To consider all aspects of the development of the Area and its effects on the river's inflow and outflow.

**Vision**

To be a leading agency in promotion of integrated, sustainable and equitable social-economic development in the region.

**Mission**

To initiate, plan and implement integrated, equitable socio-economic development programs through sustainable utilization of basin-based resources and promotion of investments within the Authority's jurisdiction for improved livelihoods.

**Core Objectives**

The Authority's Strategic Objectives are: -

1. To promote management of natural resources and environmental conservation.
2. To formulate Integrated Regional Development Plans and prepare and update resource maps in consultation with stakeholders.
3. To improve livelihoods of the communities in the region by enhancing resource-based investments.
4. To promote community participation in development while ensuring equitable benefit sharing from the economic exploitation of resources within the region
5. To enhance the coordination, monitoring and evaluation of projects in the region

Ewaso Ng'iro South River Basin Development Authority is ISO 9001:2015 Certified

**Ewaso Ng'iro South River Basin Development Authority  
Annual Corporate Reports and Financial Statements  
For the year ended June 30, 2023**

**(c) Key Management**

The Authority's day-to-day management is under the following key organs:

- Board of Directors
- Accounting officer/MD
- Management

**(d) Fiduciary Management**

The key management personnel who held office during the financial year ended 30<sup>th</sup> June 2023 and who had direct fiduciary responsibility were:

No.	Designation	Name
1.	Managing Director	Mr. Ngala Oloitip, MCIPS
2.	Chief Manager Finance	CPA Jonathan L. Nampaso
3.	Chief Manager Human Resource & Administration	Mr. Richard Tankille
4.	Chief Manager Technical Services & Operations	Eng. Peter Bw'Ogero
5.	Ag. Chief Manager Planning Research & Development	Mr. David Lemiso

**(e) Fiduciary Oversight Arrangements**

The Board has fiduciary oversight responsibility over the Authority's operations that is achieved by putting in place adequate systems and processes of accountability, risk management and controls. The key Board Committees with fiduciary oversight responsibility are the Audit and Risk Management Committee and the Finance and Establishment Committee.

The Authority's Board was however not fully constituted during 1<sup>st</sup>, 2<sup>nd</sup> and the 3<sup>rd</sup> quarter of FY 2022/2023. It comprised of the Chairman and three (3) independent members appointed W.E.F 28<sup>th</sup> July 2022, vide Gazette notice no. 8801 and 8832 respectively of 28<sup>th</sup> July 2022. Additionally, the Board comprised three Alternate Directors together with the Managing Director. The Managing Director was appointed for a period of three (3) years with effect from 1<sup>st</sup> July 2020. The term of the previous Board Chairman expired on 2<sup>nd</sup> May 2022 and that of the independent members on 6<sup>th</sup> February 2022.

It is worth noting that H.E. the President of the Republic of Kenya and the Commander-in-Chief of the Defence Forces, appointed Mr. Samuel Sakita Kutata to be the Chairperson of ENSDA, for a period of three (3) years, with effect from 5<sup>th</sup> April 2023, vide Gazette Notice No. 4391 dated 3<sup>rd</sup> April, 2023. Mr. Samuel

**Ewaso Ng'iro South River Basin Development Authority**  
**Annual Corporate Reports and Financial Statements**  
**For the year ended June 30, 2023**

---

Sakita Kutata replaced the previous Chairman who had served from 28<sup>th</sup> July 2022. On the other hand, the Cabinet Secretary (CS) for the East African Community, the ASALs and Regional Development appointed nine (9) persons to be members of ENSDA, for a period of three (3) years, W.E.F 4<sup>th</sup> April, 2023, vide Gazette Notice 4397 dated 3<sup>rd</sup> April, 2023. The CS also revoked Gazette Notice No. 8832 of 2022.

The Authority's Board membership at the end of the FY 2022/2023 ended 30<sup>th</sup> June 2023 comprised of chairman, nine (9) Independent members, three (3) Alternate members and the Managing Director. Membership of ENSDA Board is as listed below:

He has attended several courses, among them - the 11<sup>th</sup> Regional Water and Sanitation Seminar, Nairobi, Kenya, the Total Quality Management (TQM) course with the Kenya Institution of Management, the National Workshop on the Draft Water Bill 2000, Nairobi, the 'Water Resources Management and Development Priority Setting Workshop' –by the World Bank, the Workshop on International Water Law and Negotiation Skills / Conflict Resolutions' by the World Bank, the 'National Workshop on Monitoring and Information System in Water Sector, 'Results Based Management Capacity Building Training Programme', refresher course on 'Environmental Water Assessment and Allocations for Rivers' by UNESCO-IHE and the University of Dar Es Salaam, Performance Appraisal Systems Training Seminar', a 'Project Management Course' at the Strathmore University, Nairobi, Kenya, and the 'Essentials of Project Management Course' at the Kenya Development Learning Centre (KDLC), Nairobi. He presented research Papers at the 11<sup>th</sup> and 12<sup>th</sup> Stockholm Water Symposia (Stockholm, Sweden).

Mr. Bw'Ogero provides Technical Services on development of policies and strategies for initiation, planning, coordination, design, and implementation of projects and programmes. The officer provides technical guidance in the operations of projects and programmes, and ensures adherence to specifications and standards so that projects and programmes achieve the Authority's mandate to improve livelihoods in the region.

**5. CHAIRMAN'S STATEMENT**

The Board is committed to ensuring that the Authority delivers services to the public in line with the constitution of Kenya 2010 by discharging its governance and oversight functions that enable the management to improve on efficiency and effectiveness of the Authority's operations.

In line with our mandate, the Authority during the FY 2022/2023 continued with implementation of six (6) priority projects and programmes geared towards community livelihood improvement and environmental conservation within the region. These projects and programmes include: Ewaso Ng'iro Tannery and Leather factory; Bamboo Commercialization, Value Addition and Climate Change Adaptation; Oloyiangalani/Oloshoi-Oibor Integrated Food Security and Water Supply project; Oloitokitok Agro-processing factory; Integrated Tea Development Programme and Drought Mitigation programme. The six (6) projects were a continuation from FY 2021/22.

The challenges that the Authority faced during the FY 2022/2023 included insufficient resource allocation compared to the high demand for development in the region and inadequate legal and regulatory framework to facilitate effective operations. The Authority also experienced budgetary cuts and delay in disbursement of allocated funds during the Financial Year ended 30<sup>th</sup> June 2023. Generation of Appropriation in Aid (A.I.A) was adversely affected by severe drought experienced across the ASALs. To enhance financial sustainability for effective engagement in development, the Authority will continue to initiate and implement investment projects. Further, the Authority has developed a resource mobilization and partnership strategy aimed at attracting additional financing for projects to augment financial support by the exchequer. The Board, with a view to mitigating the high costs of chemicals used at the Tannery and Leather factory, has also granted approval for importation of chemicals as opposed to using dealers. With support of the Parent Ministry and stakeholders, the process of harmonization of the Authority's legal and regulatory framework is underway.

Signed: ..... *Samuel* ..... Date: *20/9/2023* .....

**MR. SAMUEL SAKITA KUTATA, CHAIRMAN BOARD OF DIRECTORS**

## 6. REPORT OF THE MANAGING DIRECTOR/ CHIEF EXECUTIVE OFFICER

During the Financial Year 2022/2023, ENSDA's management demonstrated professionalism, transparency and accountability in delivery of its mandate as well as provision of critical services to the communities and stakeholders in its area of jurisdiction comprising Narok, Kajiado and parts of Nakuru and Nyandarua Counties.

The strategic programmes that were being implemented during the Financial Year are namely, the Ewaso Ng'iro Tannery and Leather factory Leather (processing and Value addition); Integrated Bamboo Commercialization, Value Addition and Climate Change Mitigation and Adaptation; Oloyiangalani/Oloshoi-Oibor Integrated Food Security and water Supply project; Oloitokitok Agro – processing factory; Integrated Tea Development Program and Drought mitigation programme.

The Ewaso Ng'iro Tannery and Leather factory remained a priority investment project for the Authority. The factory produced 511,045.75 sq. ft against a target of 650,140.20 sq. ft of finished leather by the end of the Financial Year 2022/ 2023. The drop in production was attributable to poor quality of hides and skins as a result of prolonged drought, delayed disbursement, high cost of chemicals and machine downtime due to routine maintenance and repairs. To cushion against these, the management put in place measures to enhance production of the Tannery and Leather factory as well as mitigating the cost centers. The measures include marketing of leather products on diverse media platforms and direct importation of chemicals. In line with the presidential directive on leather and leather products, the Authority received additional funds from the National Treasury to support tannery expansion and also signed a contract with the State Department of Livestock for mopping - up of raw hides.

All Authority's programmes/ projects are aligned to the Sector Performance Standards, the Bottom-up Economic Transformation Agenda (BETA), Vision 2030, and the Global Sustainable Development Goals (SDGs). The Authority experienced budgetary cuts at the beginning of the financial year and delayed disbursement of allocated funds which affected implementation of projects especially the Tomato Agro-Processing factory, in Oloitokitok, Kajiado County and the Integrated Bamboo Commercialization programme. Additionally, Authority's jurisdiction area is predominantly Arid and Semi-arid (ASAL) hence, several parts of the region experienced effects of drought during the Financial Year. In order to cushion the local communities from the effects of the drought, the Authority mobilized funds from the National Treasury and Economic planning to drill and equip 11No. new boreholes, construct 6No. small dams/water pans, rehabilitate 8No. boreholes, construct 5km pipeline and 2No. masonry tanks in the region.

**Ewaso Ng'iro South River Basin Development Authority  
Annual Corporate Reports and Financial Statements  
For the year ended June 30, 2023**

---

The Authority ensured compliance with various statutory and constitutional requirements during the implementation of projects and delivery of services. More specifically, the Authority complied with Public Procurement requirements, such as, ensuring that 30% of all procurement is reserved for the youth and women and that 2% of that goes to People with Disabilities. In FY 2022/2023, the Authority complied with the applicable Executive Orders, for instance, by updating and publishing all tender information to the public procurement information portal, and the presidential directive on the 15 billion national trees growing and restoration campaign by propagation and raising of over 270, 000 tree seedlings and 100,000 bamboo seedlings.

The challenges that faced the Authority in FY 2022/2023 included budget rationalisation, delay in disbursement of allocated funds, effects of severe drought, environmental and social challenges, high cost of inputs attributable to rising fuel prices and global economic meltdown.

Signed:  .....

Date: 30/09/2023 .....

**Appointment of the Board**

Board membership at the beginning of the Fiscal Year 2022/23 comprised four (4) Alternate Directors only following expiry of term of the Board Chairman on 2<sup>nd</sup> May 2022 and that of the independent members on 6<sup>th</sup> February 2022. H.E The President of the Republic of Kenya, vide Gazette Notice No. 8801 appointed a new Chairman for a three (3) Year term W.E.F 28<sup>th</sup> July 2022. H.E The President however revoked the appointment of the Chairman through Gazette Notice No. 15793 dated 20<sup>th</sup> December 2022. On the other hand, the cabinet Secretary for the East African Community and Regional Development appointed three (3) Independent Directors for a three-Year term W.E.F 28<sup>th</sup> July 2023, vide Gazette Notice No. 8832.

The Authority remained without a fully constituted Board until April 2023 when the Chairman and nine (9) Independent members were appointed. Appointment of the current Board Chairman by H.E. the President of the Republic of Kenya and the Commander-in-Chief of the Defence Forces for a period of three (3) years took effect on 5<sup>th</sup> April 2023, vide Gazette Notice No. 4391 dated 3<sup>rd</sup> April, 2023 while appointment the Independent members by the Cabinet Secretary (CS) for the East African Community, the ASALs and Regional Development for a period of three (3) years was effective 4<sup>th</sup> April, 2023, vide Gazette Notice No. 4397 dated 3<sup>rd</sup> April, 2023. The CS through the same Gazette notice revoked appointment of the previous three (3) Board members.

The Board by the end of the Financial Year 2022/2023 comprised the Chairman, appointed by the President, nine (9) non – official members appointed by the Cabinet secretary of the Parent Ministry, the Managing Director and three (3) Alternate Directors. The Board membership was diverse in terms of gender, competencies, skills and experience to facilitate effective leadership of the Authority.

**Board removal process**

In accordance to the Authority Act Cap 447, membership of a non – official member of the Board may be terminated by the Cabinet Secretary of the parent Ministry on the following grounds;

- (i) Has been found guilty of improper conduct considered to be inconsistent with membership of the Authority; or
- (ii) Is incapacitated by prolonged physical or mental illness from performing his duties as a member of the Authority; or
- (iii) Is unable or unfit, for any reason, to discharge the duties of his office, and that it is in the interest of the Authority to do so, may terminate the appointment of that member.

It is worth noting none of the Board members was terminated from the Board during the FY 2022/2023 on account of the grounds stipulated above.

**Ewaso Ng'iro South River Basin Development Authority  
Annual Corporate Reports and Financial Statements  
For the year ended June 30, 2023**

**Roles and functions of the Board**

The roles and functions of the Board are as stipulated in the enabling Act Cap 447 and Mwongozo, The Code of Governance for State Corporations. The Board should:

1. Exercise its role collectively and not individually
2. Determine the organization's mission, vision, purpose and core values
3. Set and oversee the overall strategy and approve significant policies of the organization
4. Ensure that the strategy is aligned with the purpose of the organization and the legitimate interests and expectations of its shareholders and other stakeholders
5. Ensure that the strategy of the organization is aligned to the long-term goals of the organization on sustainability so as not to compromise the ability of future generations to meet their own needs
6. Approve the Organizational Structure
7. Approve the Annual Budget of the organization
8. Monitor the organization's performance and ensure sustainability
9. Enhance the corporate image of the organization.
10. Ensure availability of adequate resources for the achievement of the organization's objectives
11. Hire the CEO, on such terms and conditions of the service as may be approved by the relevant government organ(s) and approve the appointment of senior management staff
12. Ensure effective communication with stakeholders.

**Board Remuneration**

Authority's Board remuneration and benefits were as follows;

Type of payment	Chairman Kshs (Kshs.)	Member (Kshs.)
Honoraria (per month)	80,000	-
Sitting allowance (per sitting)	20,000	20,000
Airtime – Mobile phone (per month)	7,000	-
Transport allowance/ Mileage	Reimbursement is based on actual mileage at the prevailing AA rates capped at 1800 CC	Reimbursement is based on actual mileage at the prevailing AA rates capped at 1800 CC
Lunch Allowance (in lieu)	2,000	2,000
Accommodation allowance	18,200	18,200

**Ethics and Conduct**

The Code of Conduct and Ethics for State Corporations (SCs) as contained in Mwongozo: The Code of Governance for State Corporations defines the standards of behaviour required to be observed by Board members. The main focus is on ethical conduct and integrity at the work place. In line with relevant

corruption prevention guidelines, the ENSDA's Board is committed to implement various prevention activities and submit Quarterly reports accordingly. The Board is also committed to comply with provisions of MWONGOZO, The Code of Governance for State Corporation as well as other relevant laws and regulations.

### **Succession planning**

The Board monitors and evaluates performance of the Authority's management team with a view to enhancing succession planning. The outcome of the performance evaluation could be a reason for the Board to replace the Managing Director and other members of management team. The Board annually agrees on the performance targets with the Managing Director against which he is evaluated. The MD on the other hand negotiates and annually signs agreed performance targets with the senior management team against which they are evaluated after the end of the year. The term of the Board is three (3) years renewable once which ultimately ensures fresh infusion of skills and experience.

### **Board Charter, Induction and Training**

The Charter, defining the Board governance model as well as addressing a number of organizational and operational issues, was adopted on 11<sup>th</sup> April 2018. Upon appointment of the Board in April 2023, sensitization unto the Board Charter was part of the induction program and compliance with its diverse aspects is anticipated always.

Coverage of the Board Charter includes: the size and composition of the Board, the appointment of directors, Chairman and the Executive Director, the tenure of office of the Chairman and the directors, the roles and responsibilities of the Board, Chairman, Managing Director and Secretary to the Board, the remuneration of directors, induction of directors and succession planning, conduct of Board and Committee meetings, Board committees and evaluation of the performance of the directors. The Board participated in an Induction workshop for Board members that was facilitated by the Institute of Certified Secretaries (ICS) in partnership with the State Corporations Advisory Committee (SCAC) in April, 2023.

### **Board members' performance**

In compliance with Mwongozo, the Code of Governance for State Corporations, the Authority has always complied with the requirement that Board Performance Self Evaluation exercise, with the facilitation of officers from the State Corporation Advisory Committee (SCAC), is conducted within the first four months of every Financial Year. The current Board was however only two (2) months old by the end of FY 2022 - 23 following appointment of the Chairman with effect from 5<sup>th</sup> April and Members from 4<sup>th</sup> April 2023. The Board held its first meeting on 6<sup>th</sup> - 7<sup>th</sup> June 2023. Board Performance Self Evaluation exercise for FY ended 30<sup>th</sup> June 2023 was thus not conducted and communication on the same was made to the State Corporations Advisory Committee.

Ewaso Ng'iro South River Basin Development Authority is ISO 9001:2015 Certified

**Ewaso Ng'iro South River Basin Development Authority**  
**Annual Corporate Reports and Financial Statements**  
**For the year ended June 30, 2023**

---

**Conflict of interest**

In all the Board meetings during the FY 2022/2023, "Declaration of Conflict of Interest (s) if any" was always an agenda item and a register was availed for the purpose. No conflict of interest was declared during the year ended 30<sup>th</sup> June 2023

**Governance Audit**

The Authority is subject to an annual governance audit in consultation with State Corporations Advisory Committee (SCAC) in line with Mwongozo, the Code of Governance for State Corporations.

## MANAGEMENT DISCUSSION AND ANALYSIS-OPERATIONAL AND FINANCIAL PERFORMANCE.

Ewaso Ng'iro South River Basin Development Authority is fully committed to improving livelihoods of communities in its jurisdiction area. This has been made possible through implementation of integrated, sustainable, socio-economic development projects and programmes.

### OPERATIONAL PERFORMANCE

During the period under review FY 2022/2023, 7 key priority projects were implemented.

#### i. Ewaso Ng'iro Tannery & Leather Factory.

Leather processing is one of the main sub-sector in the livestock value chain contributing to employment creation, foreign exchange earnings and industrialization. The leather sector in Kenya generated over \$100 Million in revenue in the year 2020 (KNBS) and contributed to approximately 1.5% of the GDP. Ewaso Tannery and Leather factory is one of the ongoing initiatives by the Authority under the Bottom-up economic Transformation Agenda (BETA) of the Kenya Government. The project is located in the largest livestock dispersal area with more than 10 abattoirs and is expected to process about 1.2 million square feet annually of finished leather when fully operational. The main objectives of the project are to improve livelihoods, enhance GDP growth and create employment through manufacturing and value addition.

Implementation of the project started in the FY 2014/2015 and comprise of; construction of a tannery and leather factory building (3,200 m<sup>2</sup>), installation of leather tanning and processing machines, construction of effluent treatment plant (350m<sup>3</sup> /day), water supply system, access roads, perimeter fence, administration block, leather good workshop, small and medium enterprises (SME) cottages and electricity supply (600kva) coupled with a stand by generator (400kva).

During the period under review, operations of the factory continued at an estimated capacity of 41% of factory throughput. A total of 511,045.75 square feet of finished leather was produced mainly wet blue leather, crust leather and finished leather. In addition, a total of 969 pairs of shoes were produced.

Sale of finished leather products to market outlets is mainly to SMEs in markets like Nairobi, Nakuru and other regions. Niche markets like upholstery and fashion have begun to show interest. Raw materials are sourced locally from local abattoirs and Kenya Meat Commission (KMC). The main beneficiaries are the pastoralist communities.

**Ewaso Ng'iro South River Basin Development Authority  
Annual Corporate Reports and Financial Statements  
For the year ended June 30, 2023**

---

Through this project, the Authority has created 85 direct jobs and over 3,000 indirect jobs along the value chain while generating revenue for the Authority. In addition, the factory provides opportunities for setting up of leather goods cottage industries (Leather SMEs) which will create additional job opportunities and incomes for local communities.

**Raw hides and skins collection section**

**Plating machine at the Factory**

**Shoe section**

---

Ewaso Ng'iro South River Basin Development Authority is ISO 9001:2015 Certified

**ii. Agro processing (Tomato processing factory).**

Agriculture sector remains one of the largest contributor to the Kenya's economy, contributing approximately 21.4 percent of the GDP directly. Despite its role, the sector is still struggling with myriad of challenges which includes post-harvest losses, poor market prices and exploitation from middlemen, The Authority therefore initiated a tomato Agro-processing factory to cushion local small-scale farmers. The project entails establishment of a tomato processing factory with a capacity of 20,000 tons/annum. It is located in Oloitokitok which is one of the largest producers of fresh tomatoes and a major supplier of tomato to both Nairobi and Mombasa cities with an annual production of 70,000 tones. The main objectives of the project are; employment creation, enhance GDP growth and reduce postharvest losses through value addition.

Tomatoes, like other vegetables/fruits is a perishable commodity and has a shorter shelf life in normal temperature. Due to the perishability nature of these products, producers and marketers incur post-harvest losses ranging between 30 - 75%. In most instances, prices of fresh tomatoes fluctuate as a result of supply and demand forces hence sold at throw away prices in the local markets.

To address this problem, the Authority initiated and commenced implementation of the project in the FY2019/2020. The project entails; construction of factory building, tomato processing plant with a capacity of 20,000 tons/annum, water supply system, access roads, perimeter fence, administration block and waste water treatment plant.

During the review period, FY 2022/2023, the construction of the superstructure roof did not continue due to budget rationalization.

Oloitokitok Agro-Processing project super structure under construction

Steel structure ready for roofing.

**iii. Food Security - Oloyiungalani dam and Olosho Oibor food security and Water project.**

The Oloyiungalani dam/Olosho-Oibor food security and water supply project is one of the Authority's initiatives to realize the government Agenda on Agricultural Transformation and Inclusive Growth. The project is located in Kajiado West Constituency, Kajiado County which is an ASAL county with an annual rainfall of 600mm per annum. Community members trek for more than 15km during the dry seasons to water sources and migrate in search of pasture for their livestock. The main objective of the project is to improve food security, increase access to clean water for domestic, livestock and irrigation use.

Implementation of the project is ongoing and started in the FY 2019/2020. It entails; development of Oloyiungalani dam (earth dam with storage capacity of 100,000m<sup>3</sup>), Kimuka-Olosho Oibor water supply (24km water pipeline, 19 water kiosks and 2No.100m<sup>3</sup> elevated steel tanks) and model irrigation farm.

During the review period, FY 2022/2023, the Authority completed land preparation and commenced operations of the farm.

The Ploughed Demo farm

Committee meeting in progress.

**Ewaso Ng'iro South River Basin Development Authority**  
**Annual Corporate Reports and Financial Statements**  
**For the year ended June 30, 2023**

---

**iv. Integrated Bamboo commercialization and Environmental conservation.**

The project main objective is to increase forest cover and promote environmental conservation in Mau catchment through seedling propagation, plantation establishment, and value addition. During the financial year 2022/23, the Authority has propagated seedlings at HQ nurseries, cumulatively The Authority had an achievement of 100,410 bamboo seedlings. The Authority's conservation efforts impacted positively on the environment on the following ways;

Forest ecosystems are the largest terrestrial carbon (C) sink on Earth and their management has been recognized as a cost-effective strategy for mitigating greenhouse gas emissions and mitigating effects of climate change. The authority has contributed to the restoration of degraded catchments through soil conservation by plantation establishment. This is because bamboo has long underground root systems that can bind soil, prevent water run-off and survive even when the biomass above ground is destroyed by fire. The Authority has contributed to climate change mitigation through continuous afforestation efforts in the Maasai Mau forests and its environs through the continuous green school program.

The Authority has built capacities of communities within the area of jurisdiction in conservation issues and further supported them with seedlings to establish woodlots within their individual farms. This strategy enhances sustainability of conservation issues at the community level. Through Strategic partnerships with government agencies, the Authority has enhanced partnership with like-minded government institutions like KEFRI, KFS, KWT, KALRO, Netfund, and county governments to ensure successful conservation efforts in water towers, riparian lands and other catchment areas.

The Authority has conserved degraded catchments in the Mau Forest in partnership with communities and government agencies. This has contributed to a well-balanced ecosystem in which all flora and fauna thrive with minimal disturbances. Due to these increased conservation efforts, there is an increased water levels in all rivers emanating from the Mau Forest down and up-stream. E.g., Ewaso Ng'iro, Enkare Narok, Njoro, and Mara rivers

Conservation efforts upstream (Maasai Mau) have contributed to improved livelihoods for community members around the upper and downstream catchment. For example, the communities in Shompole have enjoyed increased water levels in Ewaso Ng'iro river which has necessitated sustenance of livestock and crops in this dry spell. Due to conservation efforts in the Mau complex communities upstream have enjoyed increased rainfall levels which has improved farming and food security.

The Authority has been a centre of excellence in conservation efforts in the region and has raised a bar of afforestation through supporting like-minded partners with seedlings. The Authority introduced bamboo farming and plantation within its area of jurisdiction, the uptake of this has introduced a new cash crop for farmers due to commercialization and value addition along its value chain. Finally, the Authority has contributed to the Presidential Directive of growing 15 Billion tree seedling by 2032 through propagation

of seedlings, establishment of bamboo plantations, woodlots in learning & religious institutions and support to individual farmers through the out-grower program.

**Bamboo propagation at the green house**

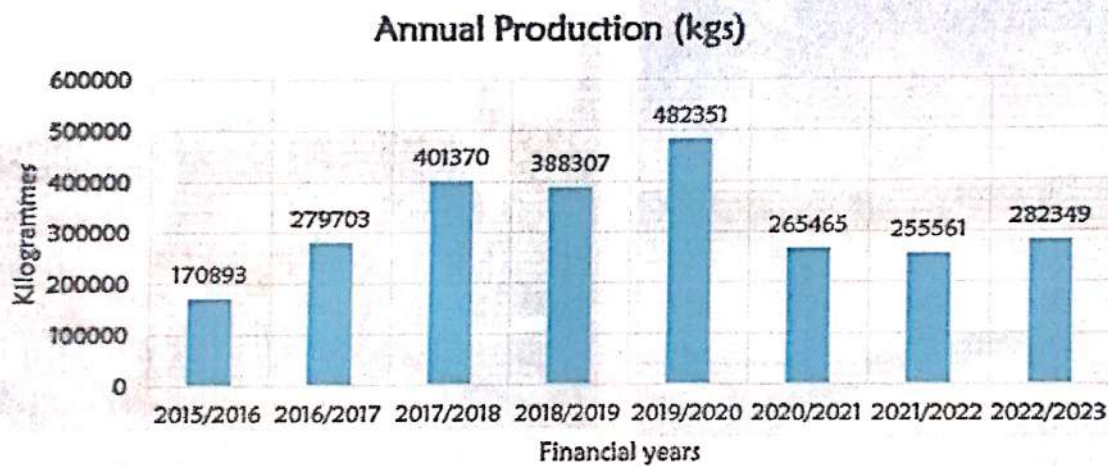

**v. Expansion of tea development project**

This is an ongoing project initiated in 2005 with an objective of conflict resolutions between communities living along the borders of Transmara as well as diversifying economic activities among pastoral communities. The project was strategically located along the Kisii – Transmara border to serve as a buffer zone to address resource use / ethnic conflicts between the Maasai and Kisii communities. To date, the Authority has established over 300 acres of tea plantation which has created more than 100 casual jobs daily and also generated revenue for the Authority through sale of tea leaves.

Production of tea leaves increased steadily up to FY2019/2020 but drastically reduced when the land lease for Keyian farm, one of the farms leased for tea cultivation, elapsed. During the period under review, FY2022/23, the Authority produced 282,349 kgs of green tea leaves which created employment opportunities to over 100 casuals.

Tea plucking at Shankoe Tea Farm.

**vi. Drought Mitigation Programme**

ENSDA's region is predominantly Arid and Semi-arid (ASALs) and therefore water scarcity is a major challenge facing local communities. Incidences of drought have increased in severity and frequency over the years. To address these challenges and further enhance the resilience of the local communities, the Authority initiated drought mitigation programme which entails drilling and rehabilitation of boreholes, construction of small dams and water pans, to cushion the local communities from the impacts of drought.

Most households in the region derive their livelihoods from livestock and livestock related products providing incomes, employment and food security. Despite its economic importance, livestock production in the area faces water scarcity constraints leading to low productivity and loss of livelihoods during

**Ewaso Ng'iro South River Basin Development Authority  
Annual Corporate Reports and Financial Statements  
For the year ended June 30, 2023**

---

drought. According to the Kenya Economic survey of 2018, livestock and its related products contributed more than Ksh135.6 Billion to the GDP making it one of the highest contributor to the GDP. The Kenya livestock sector supports the livelihoods of a significant part of the population and is key to attaining food and nutrition security in the country. The sector contributes approximately 12 per cent to the national Gross Domestic Product (GDP) and 42 per cent to agricultural GDP. It is also the main source of livelihood to the people in the Arid and Semi-Arid Lands (ASALs), accounting for 90% of employment and more than 95% of family incomes in these areas according to The International Livestock Research Institute (ILRI). Provision of water to this very important sector of the economy is necessary to sustain economic development of the region.

During the review period, FY2022/2023, the Authority commenced implementation of 11No. new boreholes, construction of 6 small dams/water pans, rehabilitation of 8No. boreholes, construction 5km pipeline and completed implementation of the pending drought mitigation projects for FY 2021/2022 which included; Kimintet Peace dam, Nairabala dam, 6No. new boreholes, equipping of 4No boreholes.

Completed Nkineji water pan

Pupils and community members drawing water from the completed and equipped Ilkerin bore hole

### **COMPLETED FY 2021/2022 DROUGHT MITIGATION PROJECTS**

#### **i. Kimintet Peace dam**

Kimintet peace dam is located in Esoit Naibor sub-location, Kimintet ward, Narok County. The area is mainly inhabited by the Kipsigis and Maasai community and prone to border conflicts. In the year 2015/2016, several people were killed and many hundreds displaced as a result of tribal clashes between the two neighbouring communities. The situation was so severe prompting the Government of Kenya through the local administration and police department to intervene by setting up a police post and a GSU camp in the area.

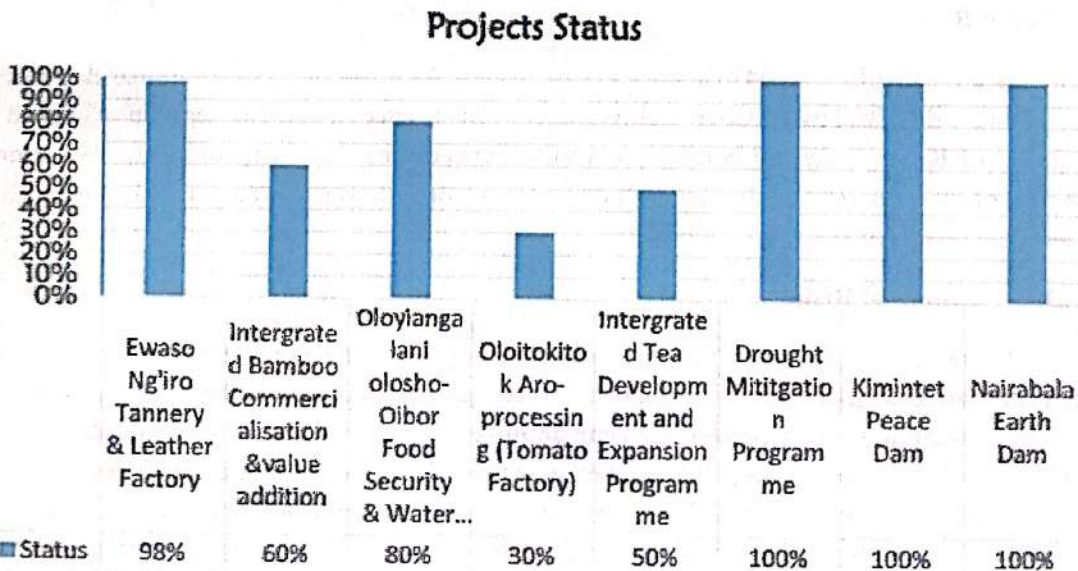

**Ewaso Ng'iro South River Basin Development Authority**  
**Annual Corporate Reports and Financial Statements**  
**For the year ended June 30, 2023**

To promote peace between these communities living along the border, the Authority initiated and implemented Kimintet peace dam project. Scarce water resources has been identified as one of the main causes of conflict in the ASAL areas. This is because, local pastoral communities who mainly rely on livestock as their main source of livelihoods always travel long distances in search of water and pasture during the drought. Along the way, they are met with resistance from communities who have settled and engaging in crop cultivation.

**Kimintet Peace dam. Volume 200,000m3**

**Project completion rate**

Ewaso Ng'iro South River Basin Development Authority is ISO 9001:2015 Certified

**ii. Forest and Land Restoration Action for Kenya (Suswa-Magadi Ecosystem Project)**

Over the years, degradation of the landscape in the Suswa-Magadi ecosystem has threatened existence of Lake Magadi and livelihoods in the area as a result of erosion and deposition of sediments into the lake. Preliminary assessment estimates the deposition of more than 20 square km which is approximately 20 percent of the lake surface area. In addition, most farmers have abandoned cultivation on their land in the upper catchment due to soil infertility and erosion that has resulted into reduced yields.

Suswa – Magadi ecosystem is one of the landscapes identified for restoration under the Forest and Land Restoration Action for Kenya (FLARAK). The project is being funded by the Government of Japan and implemented by UNDP. The Authority is one of the implementing partners taking lead in the ecosystem restoration.

During the review period, FY2022/2023, the Authority implemented the following activities; laying and construction of 20km terraces, construction of gabions, farm ponds as well as de-silting of small water pans within the upper catchment. Furthermore, laying of 'Do Nou' bags- a Japanese technology - was used to stabilize farm ponds and control erosion in the farms. The Authority also conducted capacity building of farmers on best farming practices such as ploughing along the contours to minimise soil erosion and minimise surface runoff.

**MAJOR RISKS FACING THE AUTHORITY**

Risk management has grown to be a serious concern for every organization since the operational environment is often uncertain. Because risk is inherent in the Authority's operations. In the year we conducted and addressed several risks to ensure that the Authority achieve its objectives. The Authority faced the following risks in the course of operations through the year;

**i) Legal Risk**

The Authority is legislated by Cap 447 of the Laws of Kenya. With the new constitutional dispensation, some functions were devolved to the County Governments. In absence of a revised legislation aligned with the Constitution of Kenya, potential conflicts may arise between the Authority and other Government agencies in case of inconsistency of the Act with the current Constitution. To mitigate this, the Authority is fast tracking the review of the Act.

**ii) Environmental Risks**

In the current financial year, the Authority implemented diverse projects ranging from water harvesting and storage programs, catchment conservation, bamboo commercialization and value addition project and agro-processing. The projects are dependent on climatic and environmental factors for example the rainfall patterns. The Authority's area of jurisdiction being semi-arid, climatic change and adverse weather conditions has continued to adversely affect the region and the intended impact of projects to beneficiaries may be hampered. The Authority has implemented a robust environmental management strategy and the

**Ewaso Ng'iro South River Basin Development Authority**  
**Annual Corporate Reports and Financial Statements**  
**For the year ended June 30, 2023**

---

Bamboo commercialization and climate change, adaptation and mitigation programme. to mitigate the same.

**iii) Sustainability risks**

Most of the projects implemented by the Authority are usually handed over to communities who then operate, maintain and even upscale the project where possible. However, due to lack of capacity of the communities to operate such projects sustainably, the projects are normally faced with sustainability risks. Also, some projects particularly water and environmental conservation projects are faced with threats of human wildlife conflict as most parts of the region have wildlife. To mitigate such risks the beneficiary communities are usually trained on operation and maintenance and management committees strengthened.

However, in wildlife areas the Authority collaborated with relevant agencies to minimize such incidences.

To achieve sustainability, the Authority should implement diverse income generating projects to enhance levels of internally generated funds. However, due to inadequacy of resources allocated by the exchequer the Authority may take longer time to achieve financial sustainability hence potential liquidity risks in the event of delay in release of budgetary allocation. To mitigate on such risk, the Authority is giving priority to projects that will enhance revenue generation such as the Tannery and Leather factory, Bamboo commercialization, increase tea acreage, Oloitokitok agro processing project and Narok natural resources data centre projects. In addition, aggressive resource mobilization through PPP and other development partners has been prioritized.

**iv) Technological Risks**

With technological advancements, there are higher risks of information shared on web-based platforms. In the year there were uncertainties as to the security of the Authority's information shared on various platform, posing the risk of compromising confidentiality of information shared through platforms like websites, online payment systems, Stuck on old/obsolete technology, data banks and social media.

The Authority is focused towards strengthening all its automated processes through the use of internal and external firewalls, encryption of data and establishing secure channels of data processing and sharing. Further The Authority has roll out the use of official emails and a daily data and information back up system both internally and in cloud.

**v) Liquidity Risks**

In the current financial year, the Authority implemented capital projects such as Oloitokitok agro processing factory, Oloyiangalani Oloshoibor food security and water supply project, Bamboo commercialization and operationalization of Tannery and leather factory which are continuing projects that depends on the National government on funding for their next phases. During the year under review the Authority experienced budget cuts leading to pending bills in two of its projects i.e., Oloitokitok Agro processing and Bamboo Commercialization and Value addition.

**Ewaso Ng'iro South River Basin Development Authority  
Annual Corporate Reports and Financial Statements  
For the year ended June 30, 2023**

---

The Authority is currently liaising with Parent Ministry and the National Treasury with a view of addressing the situation through a forward cash flow plan.

**COMPLIANCE WITH STATUTORY REQUIREMENTS**

As the end of FY 2021-2022 the Authority endeavored to comply with the Constitutional provision and other statutory obligations. The Authority endeavored to comply with Procurement requirements that 30% of all procurement is reserved for the youth and women and that 2% of that goes to People with Disabilities. The Authority observed the legal requirement in respect to submission of statutory deductions (PAYE, Pension, NSSF, NHIF, and HELB) and other relevant taxes. During the period under review, no unclaimed financial asset was reported.

**ENVIRONMENTAL AND SUSTAINABILITY REPORTING.**

The Authority exists to improve livelihoods through development and implementation of basin-based integrated projects and programmes in its' area of jurisdiction. Towards this the Authority's focus is on efficiently delivering relevant services and goods to citizens and promoting operational excellence.

Below is an outline of the organisation's policies, strategic programmes and activities that promote sustainability.

**a) Sustainability strategy and profile**

The sustainability strategy of the Authority focusses on the economy, environment, society and good governance practices in the implementation of its activities. All these strategies have been well developed for implementation on a short-, medium- and long-term basis. To realize the sustainability objectives the Authority implements the following programmes.

1. Integrated Basin Based Planning through regional development plans
2. Exploitation of basin-based resources and investments for Authority's financial sustainability
3. Protection and conservation of the environment for sustainable development
4. Promotion of partnership development
5. Community empowerment
6. Institutional development

**b) Environmental performance**

The Authority has an Environmental Policy in Place since the year 2013, and has been guiding all conservation activities. Key areas include reduction of carbon emission, waste management and enhancement of biological diversity.

**c) Successes on conservation**

Ewaso Ng'iro South River Basin Development Authority has been involved in raising awareness, sensitization and implementation of programmes and projects aimed at conserving and protecting the

---

Ewaso Ng'iro South River Basin Development Authority is ISO 9001:2015 Certified

For the year ended June 30, 2023**

---

major water catchments within its area of jurisdiction; namely the Aberdares and the Mau ecosystems, critical water bodies and wetlands within the Authority's area of jurisdiction. Some of the programmes initiated over the past ten years include the Community-based Conservation of the Maasai Mau Forest (COMIFORM), Catchment Conservation, the Green School Programme, Urban Rivers Restoration Program, Conservation of Enapuyapuy Wetland and the Bamboo Plantation establishment in and around the Maasai Mau Forest. During this period, the Authority has raised and planted over 5 million seedlings and provided support for schools and organized community groups to plant trees across the region. At the global level, these efforts play a key role in climate regulation. Forests are major reservoirs and sinks of carbon dioxide; the main greenhouse gas behind global warming and climate change.

**d) Shortcomings**

In the endeavor to conserve environment, various challenges have been encountered as follows:

- ✓ Adoption of bamboo farming by famers is still slow; there is a need to undertake more sensitization to recruit more out-grower farmers
- ✓ Effects of Prolonged drought on the bamboo plantations and conservation in general
- ✓ During the rainy season it's extremely difficult to access the plantation due to poor roads thus transportation of seedlings is affected during rainy season.
- ✓ Attacks from forest rodents the new shoots are sweet and rodents feed on it thus affecting growth of bamboo.

**e) Efforts to manage biodiversity.**

The Authority has played a great role in the conservation of biological diversity. Major conservation efforts have been concentrated on the Mau Ecosystem. Mau Forest complex is a significant habitat to various live forms of both flora and fauna. The forest is also the source of major rivers that traverse the Ewaso Ng'iro South Development Authority's area of jurisdiction. The rivers that originate from the Mau Ecosystem include the Njoro River, Mara River, Molo River, Ewaso Ng'iro River and their tributaries which include the Enkare Narok River, Siyiapei River, Amala, Naishi River, Makalia River and Nyangores rivers. These rivers have a huge ecological significance as some of them are transboundary and drain to other countries in Africa. Ewaso Ng'iro River plays an important role in the ecology of Lake Natron in Tanzania, the main regular breeding site for the near-threatened lesser flamingoes. In addition, the Mara River basin is one of the ten drainage basins that feed into Lake Victoria, and is therefore functionally and ecologically related to the socio-economic activities in Lake Victoria and along the river Nile. Most of these rivers are critical to major conservation areas such as the Maasai Mara National Reserve, Serengeti National Park and the Kam Narok game reserve among others.

In collaboration with other stakeholders; such as the Water Resource User's Associations, Community Forest Associations, Kenya Forest Service, Kenya Wildlife Service, NEMA, WRA, KNCCI, CBO's and County Governments of the counties that we operate in, the Authority has conserved the source and the

Annual Corporate Reports and Financial Statements  
For the year ended June 30, 2023**

---

riparian lands of major rivers such as the Njoro River and Enkare Narok River through securing and planting of appropriate tree species.

**f) Waste management policy.**

The Authority has employed the 3Rs principle of Reduce, Reuse and Recycle throughout its operations. For example, most operations have been digitalized and use of printing paper has greatly been reduced. Some wastes, such as the organic ones (horticultural) are reused as manure to the Authority bamboo plantations and forests. Recycling is majorly done at the Leather and tanning factory, where processing of the waste water is done making it available for use as a raw material.

The Authority has always advocated for clean energy and has done a lot of capacity building of the communities within its area of jurisdiction.

In efforts to reduce environmental impact of the organization's products, all Authority's new projects are subjected to Environmental Impact Assessment. Monitoring and evaluation of progress at all phases of development is also carried out through environmental management tools such as the Environmental Audits. These ensure that Environmental Management Plan is adhered to and thus minimize negative impacts to the environment. The Authority normally appoints committees such as the ISO Committee; Monitoring and Evaluation committee as well as the Environmental Sustainability and Safety Committee which ensure that all Authority's products conform to national and international standards and that the Authority observes continual improvement in all areas.

**g) Employee welfare.**

The Authority has developed a comprehensive Human Resource policy. It contains guidelines in regard to publication, printing and use of office stationery. The policy also provides rules governing recruitment, appointment, confirmation in appointment and promotion of the Authority's officers. It also provides guidelines on career progression, secondments and transfer of officers from one organization to another and other related matters.

It further provides guidelines for the prevention and protection of officers against accidents and occupational hazards arising at the work place. It also provides for guidelines, procedures and modalities for the administration and payment of compensation for work related injuries and accidents contracted during and outside the course of work, it provides for guidance and Counseling and putting in place measures for the management of HIV/AIDS at the workplace and the rehabilitation of officers who may be facing challenges of drugs and substance abuse.

**Ewaso Ng'iro South River Basin Development Authority  
Annual Corporate Reports and Financial Statements  
For the year ended June 30, 2023**

---

**h) Market place practices**

**i. Responsible competition practice.**

The Authority conducts all procurement processes in line with The Public Procurement & Asset Disposal Act 2015, Regulations of 2020 and the Public Finance Management Act.

All statutory reports are submitted to relevant regulatory Authority's as per the requirements.

**ii. Responsible Supply chain and supplier relations**

Suppliers are engaged through a free, fair and competitive process and are selected based on capacity. The obligations of both The Authority and the suppliers are clearly stated in the contract agreement which is enforceable by law. Payments are made based on work done as per the contract agreements.

**iii. Responsible marketing and advertisement**

- ✓ The Authority is Transparent in marketing and advertising its products
- ✓ The Authority Protects Consumer Data and Privacy
- ✓ The Authority Commits to Sustainability and Human Rights
- ✓ The Authority Responds to Meaningful Consumer Concerns
- ✓ It Maximizes Benefits and Minimize Risks.

**iv. Product stewardship**

- ✓ Access of consumers to adequate information to enable them to make informed choices according to individual wishes and needs;
- ✓ Consumer Education;
- ✓ Availability of effective consumer redress and a public complaint reporting and handling mechanism;
- ✓ Freedom to form consumer and other relevant groups or organizations and the opportunity of such organizations to present their views in decision-making processes affecting them
- ✓ Uploaded our charters in the websites

**v. Corporate Social Responsibility / Community Engagements**

The Authority is committed to improving livelihoods and undertakes social economic programs in the river basin by creating an enabling environment for economic growth and ensuring sustainable and equitable development through optimum utilization, coordination and management of resources for enhanced quality of life. Towards this the Authority implements core mandate programmes and projects.

During financial year 2022/2023 that ended in 30<sup>th</sup> June, 2023 the Authority undertook Corporate Social Responsibility activities in environmental conservation, water and sanitation, Health, Education and Sports.

The specific activities and beneficiaries undertaken under CSR include the following:

---

**REPORT OF THE DIRECTORS**

The Directors submit their report together with the financial statements for the year ended June 30, 2023, which show the state of ENSDAs' affairs.

**i) Principal activities**

The principal activities of the Authority continue to be; the Ewaso Ng'iro Tannery and Leather Factory project, Integrated Bamboo commercialization and Environmental conservation programme, Oloyiangalani dam and Olosho-Oibor food security and Water project, Agro processing (Oloitokitok Tomato processing factory) and Integrated tea development project

**ii) Results**

The results of the Authority for the year ended June 30, 2023, are set out on page 1 to 5

**iii) Directors**

The members of the Board of Directors who served during the year are shown on page x to page xix

**iv) Surplus remission**

Ewaso Ng'iro South Development Authority has reported a surplus of Ksh 262,883,437 during the end of FY 2022-2023. The surplus is meant for Tannery expansion hence no remittance to the Consolidated Fund.

**v) Auditors**

The Auditor General is responsible for the statutory audit of the Authority in accordance with Article 229 of the Constitution of Kenya and the Public Audit Act 2015

By Order of the Board

Ewaso Ng'iro South River Basin Development Authority is ISO 9001:2015 Certified

## STATEMENT OF DIRECTORS' RESPONSIBILITIES

Section 81 of the Public Finance Management Act 2012, section 14 of the State Corporations Act, and the Act of parliament that formed ENSDAs CAP 447 of the Laws of Kenya require the Directors to prepare financial statements in respect of ENSDA which give a true and fair view of the state of affairs of the Authority at the end of the financial year/period and the operating results of the Authority for that year/period. The Directors are also required to ensure that ENSDA keeps proper accounting records which disclose with reasonable accuracy the financial position of the Authority. The Directors are also responsible for safeguarding the assets of the Authority.

The Directors are responsible for the preparation and presentation of the Authority's financial statements, which give a true and fair view of the state of affairs of the Authority for and as at the end of the financial year (period) ended on June 30, 2023. This responsibility includes:

- (i) Maintaining adequate financial management arrangements and ensuring that these continue to be effective throughout the reporting period;
- (ii) Maintaining proper accounting records, which disclose with reasonable accuracy at any time the financial position of the entity;
- (iii) Designing, implementing and maintaining internal controls relevant to the preparation and fair presentation of the financial statements, and ensuring that they are free from material misstatements, whether due to error or fraud;
- (iv) Safeguarding the assets of the Authority;
- (v) Selecting and applying appropriate accounting policies; and
- (vi) Making accounting estimates that are reasonable in the circumstances.

The Directors accept responsibility for ENSDAs financial statements, which have been prepared using appropriate accounting policies supported by reasonable and prudent judgements and estimates, in conformity with International Public Sector Accounting Standards (IPSAS), and in the manner required by the PFM Act, 2012 and (the State Corporations Act) and the Authority's Act of Parliament CAP 447 of the Laws of Kenya. The Directors are of the opinion that ENSDAs' financial statements give a true and fair view of the state of the Authority's transactions during the financial year ended June 30, 2023, and of the Authority's financial position as at that date.

The Directors further confirms the completeness of the accounting records maintained for the Authority which have been relied upon in the preparation of the ENSDAs' financial statements as well as the adequacy of the systems of internal financial control.

Nothing has come to the attention of the Directors to indicate that the Authority will not remain a going concern for at least the next twelve months from the date of this statement.

**REPORT OF THE AUDITOR-GENERAL ON EWASO NG'IRO SOUTH RIVER BASIN  
DEVELOPMENT AUTHORITY FOR THE YEAR ENDED 30 JUNE, 2023**

---

**PREAMBLE**

I draw your attention to the contents of my report which is in three parts:

- A. Report on the Financial Statements that considers whether the financial statements are fairly presented in accordance with the applicable financial reporting framework, accounting standards and the relevant laws and regulations that have a direct effect on the financial statements.
- B. Report on Lawfulness and Effectiveness in Use of Public Resources which considers compliance with applicable laws, regulations, policies, gazette notices, circulars, guidelines and manuals and whether public resources are applied in a prudent, efficient, economic, transparent and accountable manner to ensure the Government achieves value for money and that such funds are applied for the intended purpose.
- C. Report on the Effectiveness of Internal Controls, Risk Management and Governance which considers how the entity has instituted checks and balances to guide internal operations. This responds to the effectiveness of the governance structure, risk management environment and internal controls, developed and implemented by those charged with governance for orderly, efficient and effective operations of the entity.

An unmodified opinion does not necessarily mean that an entity has complied with all relevant laws and regulations and that its internal controls, risk management and overall governance systems are properly designed and were working effectively in the financial year under review.

The three parts of the report are aimed at addressing the statutory roles and responsibilities of the Auditor-General as provided by Article 229 of the Constitution, the Public Finance Management Act, 2012 and the Public Audit Act, 2015. The three parts of the report when read together constitute the report of the Auditor-General.

**REPORT ON THE FINANCIAL STATEMENTS**

**Qualified Opinion**

I have audited the accompanying financial statements of Ewaso Ng'iro South River Basin Development Authority set out on pages 1 to 48, which comprise of the statement of financial position as at 30 June, 2023 and the statement of financial performance, statement of changes in net assets, statement of cash flows and statement of comparison

of budget and actual amounts for the year then ended and a summary of significant accounting policies and other explanatory information in accordance with the provisions of Article 229 of the Constitution of Kenya and Section 35 of the Public Audit Act, 2015. I have obtained all the information and explanations which to the best of my knowledge and belief, were necessary for the purpose of the audit.

In my opinion, except for the effects of the matter described in the Basis for Qualified Opinion section of my report, the financial statements present fairly, in all material respects, the financial position of Ewaso Ng'iro South River Basin Development Authority as at 30 June, 2023 and of its financial performance and its cash flows for the year then ended, in accordance with International Public Sector Accounting Standards (Accrual Basis) and comply with the Public Finance Management Act, 2012 and Ewaso Ng'iro South River Basin Development Authority Act, 1989.

## **Basis for Qualified Opinion**

### **Unconfirmed Land Ownership**

The statement of financial performance reflects drought mitigations programs expenditure of Kshs.266,214,719 as disclosed in Note 15 to the financial statements. The amount includes expenditure incurred on the construction of seven (7) dams, nine (9) boreholes and a pipeline at a cost of Kshs.150,735,114, Kshs.93,065,642 and Kshs.12,209,124 respectively totalling Kshs.256,009,880. However, acquisition agreements for the land parcels for which the constructions of the projects were undertaken were not provided. Further, the projects were not branded to inform on the project scope, contractor and timelines despite the cost being factored in the contract price. The completed projects have not been handed over to the relevant authorities or beneficiaries.

In addition, Nkineji dam retainer wall and Nkoirienito pipeline tank ground were affected by heavy soil erosion that may affect the project integrity which may impact on its lifespan and pose danger to the community downstream.

In the circumstances, the rightful ownership to the parcels of land on which investments totalling Kshs.256,009,880 in the year under review were made could not be confirmed.

The audit was conducted in accordance with the International Standards for Supreme Audit Institutions (ISSAIs). I am independent of the Ewaso Ng'iro South River Basin Development Authority Management in accordance with ISSAI 130 on the Code of Ethics. I have fulfilled other ethical responsibilities in accordance with the ISSAI and in accordance with other ethical requirements applicable to performing audits of financial statements in Kenya. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my qualified opinion.

## **Emphasis of Matter**

### **Budgetary Control and Performance**

The statement of comparison of budget and actual amounts reflects total expenditure budget and actual on comparable basis of Kshs.1,083,019,288 and Kshs.830,476,935 respectively resulting to under absorption of Kshs.274,872,782 or 23% of the budget. The

under-absorption affected the Authority's planned activities and may have impacted negatively on service delivery to the residents of the Ewaso Ng'iro South River Basin.

My opinion is not modified in respect of this matter.

### **Key Audit Matters**

Key audit matters are those matters that, in my professional judgement, are of most significance in the audit of the financial statements. There were no key audit matters to report in the year under review.

### **Other Matter**

#### **Unresolved Prior Year Matters**

In the audit report of the previous year, several paragraphs were raised under the Report on Financial Statements and Report on Lawfulness and Effectiveness in Use of Public Resources. However, Management has not resolved the issues or given any explanation for the failure to adhere to the provisions of the Public Sector Accounting Standards Board template.

## **REPORT ON LAWFULNESS AND EFFECTIVENESS IN USE OF PUBLIC RESOURCES**

### **Conclusion**

As required by Article 229(6) of the Constitution and based on the audit procedures performed, except for the matters described in the basis for conclusion on lawfulness and effectiveness in use of public resources section of my report, I confirm that nothing else has come to my attention to cause me to believe that public resources have not been applied lawfully and in an effective way.

### **Basis for Conclusion**

#### **1. Non-Adherence to National Cohesion and Integration Act, 2008**

Analysis of the Authority's staff establishment revealed that 68% of staff are from one ethnic community. This is contrary to Section 7(1) and (2) of the National Cohesion and Integration Act, 2008 which states that, all public establishments shall seek to represent the diversity of the people of Kenya in the employment of staff and that no public establishment shall have more than one third of its staff from the same ethnic community.

In the circumstances, Management was in breach of the law.

#### **2. Non-Implementation of E-Procurement**

Management has not implemented the E-procurement system as required by Section 49(2) of the Public Procurement and Asset Disposal Regulations, 2020 which states that the conduct of e-procurement procedures for the supply of goods, works and services shall be carried out by a procuring entity using an e-procurement system which is integrated to the state portal.

In the circumstances, Management was in breach of procurement regulations and procurement procedures are not being executed efficiently and transparently.

The audit was conducted in accordance with the International Standards for Supreme Audit Institutions (ISSAI) 4000. The standard requires that I comply with ethical requirements and plan and perform the audit to obtain assurance about whether the activities, financial transactions and information reflected in the financial statements comply, in all material respects, with the authorities that govern them. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion.

## REPORT ON THE EFFECTIVENESS OF INTERNAL CONTROLS, RISK MANAGEMENT AND GOVERNANCE

### **Conclusion**

As required by Section 7(1)(a) of the Public Audit Act, 2015 and based on the audit procedures performed, I confirm that, nothing has come to my attention to cause me to believe that internal controls, risk management and governance were not effective.

### **Basis for Conclusion**

The audit was conducted in accordance with the International Standards for Supreme Audit Institutions (ISSAIs) 2315 and 2330. The standards require that I plan and perform the audit to obtain assurance about whether effective processes and systems of internal controls, risk management and overall governance were operating effectively, in all material respects. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion.

### **Responsibilities of Management and the Board of Directors**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Public Sector Accounting Standards (Accrual Basis) and for maintaining effective internal controls as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error and for its assessment of the effectiveness of internal controls, risk management and governance.

In preparing the financial statements, Management is responsible for assessing the Authority's ability to sustain its services, disclosing, as applicable, matters related to sustainability of services and using the applicable basis of accounting unless Management is aware of the intention to terminate the Authority or to cease its operations.

Management is also responsible for the submission of the financial statements to the Auditor-General in accordance with the provisions of Section 47 of the Public Audit Act, 2015.

In addition to the responsibility for the preparation and presentation of the financial statements described above, Management is also responsible for ensuring that the

activities, financial transactions and information reflected in the financial statements comply with the authorities which govern them and that public resources are applied in an effective way.

The Board of Directors is responsible for overseeing the Authority's financial reporting process, reviewing the effectiveness of how Management monitors compliance with relevant legislative and regulatory requirements, ensuring that effective processes and systems are in place to address key roles and responsibilities in relation to governance and risk management, and ensuring the adequacy and effectiveness of the control environment.

### **Auditor-General's Responsibilities for the Audit**

The audit objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion in accordance with the provisions of Section 48 of the Public Audit Act, 2015 and submit the audit report in compliance with Article 229(7) of the Constitution. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISSAIs will always detect a material misstatement and weakness when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

In addition to the audit of the financial statements, a compliance audit is planned and performed to express a conclusion about whether, in all material respects, the activities, financial transactions and information reflected in the financial statements are in compliance with the authorities that govern them and that public resources are applied in an effective way, in accordance with the provisions of Article 229(6) of the Constitution and submit the audit report in compliance with Article 229(7) of the Constitution.

Further, in planning and performing the audit of the financial statements and audit of compliance, I consider internal control in order to give an assurance on the effectiveness of internal controls, risk management and overall governance processes and systems in accordance with the provisions of Section 7(1)(a) of the Public Audit Act, 2015 and submit the audit report in compliance with Article 229(7) of the Constitution. My consideration of the internal control would not necessarily disclose all matters in the internal control that might be material weaknesses under the ISSAIs. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Because of its inherent limitations, internal control may not prevent or detect misstatements and instances of non-compliance. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.

As part of an audit conducted in accordance with ISSAIs, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of the Management's use of the applicable basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Authority's ability to sustain its services. If I conclude that a material uncertainty exists, I am required to draw attention in the auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my audit report. However, future events or conditions may cause the Authority to cease to sustain its services.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information and business activities of the Authority to express an opinion on the financial statements.
- Perform such other procedures as I consider necessary in the circumstances.

I communicate with Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that are identified during the audit.

I also provide Management with a statement that I have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence and where applicable, related safeguards.

**Ewaso Ng'iro South River Basin Development Authority is ISO 9001:2015 Certified**

**NOTES TO THE FINANCIAL STATEMENTS**

**1. General Information**

Ewaso Ng'iro South River Basin Development Authority was formed on 1989 by an Act of Parliament CAP 447 of the Laws of Kenya. At Cabinet level, Ewaso Ng'iro South River Basin Development Authority is represented by the Cabinet Secretary for Ministry of East Africa community, Asal and Regional Development. The Cabinet Secretary is responsible for the general policy and strategic direction of the Authority. The principal activity of Ewaso Ng'iro South River Basin Development Authority is to plan, coordinate and implement development projects within its area of jurisdiction.

**2. Statement of compliance and basis of preparation**

The Authority's financial statements have been prepared on accrual basis in accordance with and comply with International Public Sector Accounting Standards (IPSAS). The financial statements are presented in Kenya shillings, which is the functional and reporting currency of the entity. The accounting policies have been consistently applied to all the years presented.

The financial statements have been prepared on the basis of historical cost, unless stated otherwise.

The cash flow statement is prepared using the direct method.

**3. Adoption of New and Revised Standards**

Standard	Impact
IPSAS 17: Property, Plant, and Equipment.	The Authority adopted the standard and no Amendments to remove transitional provisions which should have been deleted when IPSAS 33, First Time Adoption of Accrual Basis International Public Sector Accounting Standards (IPSASs) was approved.

**4. Summary of Significant Accounting Policies**

**a) Revenue recognition**

**i. Revenue from non-exchange transactions**

Transfers from other government entities

Revenues from non-exchange transactions with other government entities are measured at fair value and recognized on obtaining control of the asset (cash, goods, services and property) if the transfer is free from conditions and it is probable that the economic benefits or service potential related to the asset will flow to the entity and can be measured reliably.

### **Transfers from other government entities**

Revenues from non-exchange transactions with other government entities are measured at fair value and recognized on obtaining control of the asset (cash, goods, services, and property) if the transfer is free from conditions and it is probable that the economic benefits or service potential related to the asset will flow to the entity and can be measured reliably. To the extent that there is a related condition attached that would give rise to a liability to repay the amount, the amount is recorded in the statement of financial position and realised in the statement of financial performance over the useful life of the assets that has been acquired using such funds.

### **ii. Revenue from exchange transactions**

#### **Rendering of services**

The entity recognizes revenue from rendering of services when revenue can be measured reliably, it is probable that the economic benefits or service potential associated with the transaction will flow to the entity and the stage of completion of the transaction at the reporting date can be measured reliably.

#### **Sale of goods**

Revenue from the sale of goods is recognized when the significant risks and rewards of ownership have been transferred to the buyer, usually on delivery of the goods and when the amount of revenue can be measured reliably and it is probable that the economic benefits or service potential associated with the transaction will flow to the entity.

### **b) Budget information**

The Authority's budget is prepared on accrual basis which is the same basis applied in the recognition of the actual income and expenditure disclosed in the financial statements. The final revised budget for FY 2022-2023 was approved by the Board on July 2023. Subsequent revisions or additional appropriations were made to the approved budget in accordance with specific approvals from the appropriate authorities.

The Authority's budget is prepared on a different basis to the actual income and expenditure disclosed in the financial statements. The financial statements are prepared on accrual basis using a classification based on the nature of expenses in the statement of financial performance, whereas the budget is prepared on a cash basis. The amounts in the financial statements were recast from the accrual basis to the cash basis and reclassified by presentation to be on the same basis as the approved budget. A comparison of budget and actual amounts, prepared on a comparable basis to the approved budget, is then presented in the statement of comparison of budget and actual amounts.

In addition to the Basis difference, adjustments to amounts in the financial statements are also made for differences in the formats and classification schemes adopted for the presentation of the financial statements and the approved budget.

A statement to reconcile the actual amounts on a comparable basis included in the statement of comparison of budget and actual amounts and the actuals as per the statement of financial performance has been presented under page 7 of these financial statements.

**c) Taxes**

**Current income tax**

Current income tax liabilities for the current period are measured at the amount expected to be paid or remitted to the taxation authorities. The tax rates and tax laws used to compute the tax liability are consistent with those enacted, at the reporting date in the area where the entity operates.

**Deferred tax**

Deferred tax liabilities are measured at the tax rates that are expected to apply in the year when the liability is settled, based on tax rates (and tax laws) that have been enacted at the reporting date.

**Sales tax**

Expenses and assets are recognized net of the amount of sales tax, except:

- When the sales tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the sales tax is recognized as part of the cost of acquisition of the asset or as part of the expense item, as applicable
- When receivables and payables are stated with the amount of sales tax included

The net amount of sales tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position.

**d) Investment property**

Investment properties are measured initially at cost, including transaction costs. The carrying amount includes the replacement cost of components of an existing investment property at the time that cost is incurred if the recognition criteria are met and excludes the costs of day-to-day maintenance of an investment property.

Investment property acquired through a non-exchange transaction is measured at its fair value at the date of acquisition. Subsequent to initial recognition, investment properties are measured using the cost model and are depreciated over a 30-year period.

Investment properties are derecognized either when they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit or service potential is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in the surplus or deficit in the period of de-recognition.

Transfers are made to or from investment property only when there is a change in use.

**e) Property, Plant and Equipment**

All property, plant and equipment are stated at revalued amounts whereas assets acquired after revaluation are stated as cost (including expenditure that is directly attributable to the acquisition of the items) on acquisition. Where an asset is acquired through a non-exchange transaction, its cost shall be measured at its fair value as at the date of acquisition.

**Ewaso Ng'iro South River Basin Development Authority**  
**Annual Reports and Financial Statements**  
**For the year ended June 30, 2023**

---

Where an asset is acquired through construction or structured procurement process, the costs relating to the processes are accumulated and debited to the Work in Progress account. Work in Process comprises of all direct costs incurred in constructing an asset or acquisition of machinery including buying, transporting, installing, and testing the machinery or equipment. Once an asset is placed in service, all costs associated with it as recorded in the work in progress account are moved to the respective fixed asset account e.g. building or machinery.

Once the assets are placed in service and moved to their final fixed asset account, depreciation commences.

Revaluations shall be made periodically, after every 5 years, to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the reporting date.

Motor vehicle	25%
Furniture, fitting and Equipment	12.5%
Buildings Permanent Non-Residential	2%
Buildings Semi Permanent Non-Residential	12.5%
Buildings Permanent Residential	2%
Computers and related Accessories	30%
Loose Tools	33.33%

**f) Leases**

The Authority has operating leases under leasehold land. Operating lease payments are recognized as an operating expense in the statement of financial performance on a straight-line basis over the lease term.

**g) Intangible assets**

Intangible assets are initially recognized at cost. Intangible assets acquired in a non-exchange transaction are recognized at their fair value at the date of the acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in the statement of financial performance in the period in which the expenditure is incurred.

The useful life of the intangible assets is assessed as either finite or indefinite.

With the vast changing technology, the Authority's enterprise Resource Planning (ERP) Program is being amortized over 8 years' time.

#### **h) Research and development costs**

The Entity expenses research costs as incurred. Development costs on an individual project are recognized as intangible assets when:

- i. The technical feasibility of completing the asset so that the asset will be available for use or sale
- ii. Its intention to complete and its ability to use or sell the asset
- iii. How the asset will generate future economic benefits or service potential
- iv. The availability of resources to complete the asset
- v. The ability to measure reliably the expenditure during development

Initial recognition of the asset, is carried at cost less any accumulated amortization and accumulated impairment losses. Amortization of the asset begins when development is complete and the asset is available for use. It is amortized over the period of expected future benefit. During the period of development, the asset is tested for impairment annually with any impairment losses recognized immediately in the statement of financial performance.

#### **i) Financial instruments**

##### **Financial assets**

The Authority does not handle any Financial Assets.

##### **Subsequent measurement**

Based on the business model and the cash flow characteristics, the entity classifies its financial assets into amortized cost or fair value categories for financial instruments. Movements in fair value are presented in either surplus or deficit or through net assets/ equity subject to certain criteria being met.

##### **Amortized cost**

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest, and that are not designated at fair value through surplus or deficit, are measured at amortized cost. A gain or loss on an instrument that is subsequently measured at amortized cost and is not part of a hedging relationship is recognized in profit or loss when the asset is de-recognized or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

##### **Fair value through net assets/ equity**

Financial assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through net assets/ equity. Movements in the carrying amount are taken through net assets, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in surplus/deficit. Interest income from these financial assets is included in finance income using the effective interest rate method.

### Trade and other receivables

Trade and other receivables are recognized at fair values less allowances for any uncollectible amounts. Trade and other receivables are assessed for impairment on a continuing basis. An estimate is made of doubtful receivables based on a review of all outstanding amounts at the year end.

### Fair value through surplus or deficit

Financial assets that do not meet the criteria for amortized cost or fair value through net assets/ equity are measured at fair value through surplus or deficit. A business model where the entity manages financial assets with the objective of realizing cash flows through solely the sale of the assets would result in a fair value through surplus or deficit model.

### Impairment of financial assets

The Entity assesses at each reporting date whether there is objective evidence that a financial asset or a entity of financial assets is impaired. A financial asset or an entity of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event has an impact on the estimated future cash flows of the financial asset or the entity of financial assets that can be reliably estimated. Evidence of impairment may include the following indicators:

- The debtors or an entity of debtors are experiencing significant financial difficulty
- Default or delinquency in interest or principal payments
- The probability that debtors will enter bankruptcy or other financial reorganization
- Observable data indicates a measurable decrease in estimated future cash flows (e.g. changes in arrears or economic conditions that correlate with defaults)

During the FY2022/2023 the Authority did not have any financial instruments.

### j) Inventories

Inventory is measured at cost upon initial recognition. To the extent that inventory was received through non-exchange transactions (for no cost or for a nominal cost), the cost of the inventory is its fair value at the date of acquisition.

Costs incurred in bringing each product to its present location and conditions are accounted for, as follows:

- i. Raw materials: purchase cost using the weighted average cost method
- ii. Finished goods and work in progress: cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing costs

After initial recognition, inventory is measured at the lower of cost and net realizable value. However, to the extent that a class of inventory is distributed or deployed at no charge or for a nominal charge, that class of inventory is measured at the lower of cost and current replacement cost.

Net realizable value is the estimated selling price in the ordinary course of operations, less the estimated costs of completion and the estimated costs necessary to make the sale, exchange, or distribution.

Inventories are recognized as an expense when deployed for utilization or consumption in the ordinary course of operations of the Entity.

**k) Provisions**

Provisions are recognized by the Authority when it has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

**l) Social Benefits**

Social benefits are cash transfers provided to i) specific individuals and / or households that meet the eligibility criteria, ii) mitigate the effects of social risks and iii) Address the need of society as a whole. The entity recognises a social benefit as an expense for the social benefit scheme at the same time that it recognises a liability. The liability for the social benefit scheme is measured at the best estimate of the cost (the social benefit payments) that the entity will incur in fulfilling the present obligations represented by the liability.

**m) Contingent liabilities**

The Authority does not recognize a contingent liability, but discloses details of any contingencies in the notes to the financial statements, unless the possibility of an outflow of resources embodying economic benefits or service potential is remote.

The Council of Governors had sued the Regional Development Authority's challenging their mandate. It was resolved that the RDA's mandate does not conflict with the County's government roles. If it was ruled to the favour of Council of governors, then it would have rendered the RDA's redundant.

**n) Contingent assets**

The Authority does not recognize a contingent asset, but discloses details of a possible asset whose existence is contingent on the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Authority in the notes to the financial statements. Contingent assets are assessed continually to ensure that development are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits or service potential will arise and the asset's value can be measured reliably, the asset and the related revenue are recognized in the financial statements of the period in which the change occurs.

**o) Nature and purpose of reserves**

The Authority creates and maintains reserves in terms of specific requirements. The Authority maintains revaluation reserves that results from revaluation of property, plant and equipment, land and biological assets. Gains on revaluations are transferred to the revaluation reserves while loss on revaluation is expensed in the statement of financial performance.

Where a revalued asset is subsequently valued down due to impairment, the loss is first written off against any balance available in the revaluation surplus and if the loss exceeds the revaluation surplus balance of the same asset the difference is charged to income statement as impairment.

**p) Changes in accounting policies and estimates**

The Authority recognizes the effects of changes in accounting policy retrospectively. The effects of changes in accounting policy are applied prospectively if retrospective application is impractical.

**q) Employee benefits**

**Retirement benefit plans**

The Authority provides non-discriminatory retirement benefits for its employees. The Authority has a defined contribution scheme under which both the employees and the Authority contributes fixed amounts at the ratio of 1:2. Under this arrangement, the Authority will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods. The contributions to fund obligations for the payment of retirement benefits are charged against income in the year in which they become payable.

**r) Foreign currency transactions**

Transactions in foreign currencies are initially accounted for at the ruling rate of exchange on the date of the transaction. Trade creditors or debtors denominated in foreign currency are reported at the statement of financial position reporting date by applying the exchange rate on that date. Exchange differences arising from the settlement of creditors, or from the reporting of creditors at rates different from those at which they were initially recorded during the period, are recognized as income or expenses in the period in which they arise

**s) Borrowing costs**

Borrowing costs are capitalized against qualifying assets as part of property, plant and equipment.

Such borrowing costs are capitalized over the period during which the asset is being acquired or constructed and borrowings have been incurred. Capitalization ceases when construction of the asset is complete. Further borrowing costs are charged to the statement of financial performance.

**t) Related parties**

The Authority recognizes a person or an entity with the ability to exert control individually or jointly, or exercise significant influence on the operations of the entity as a related party. The Board of directors, key management comprising of the Chief Executive Office and Chief Managers are regarded as related parties.

**u) Service concession arrangements**

The Authority analyses all aspects of service concession arrangements that it enters into in determining the appropriate accounting treatment and disclosure requirements. In particular, where a private party

**Ewaso Ng'iro South River Basin Development Authority**  
**Annual Reports and Financial Statements**  
**For the year ended June 30, 2023**

---

contributes an asset to the arrangement, the Authority recognizes that asset when, and only when, it controls or regulates the services the operator must provide together with the asset, to whom it must provide them, and at what price. In the case of assets other than 'whole-of-life' assets, it controls, through ownership, beneficial entitlement or otherwise – any significant residual interest in the asset at the end of the arrangement. Any assets so recognized are measured at their fair value. To the extent that an asset has been recognized, the Authority also recognizes a corresponding liability, adjusted by a cash consideration paid or received.

**v) Cash and cash equivalents**

Cash and cash equivalents comprise cash on hand and cash at bank, short-term deposits on call and highly liquid investments with an original maturity of three months or less, which are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value.

**w) Comparative figures**

The Authority provides audited comparative figures for the previous financial year to conform to the required changes in presentation. Where necessary comparative figures for the previous financial year are amended or reconfigured to conform to the required changes in presentation.

**x) Subsequent events**

The Authority recognizes events both favorable and unfavorable after the reporting date as subsequent events. During the FY 2021-2022, the Authority had no a prior year adjustment.

**5. Significant Judgments and Sources of Estimation Uncertainty**

In preparation of the financial statements, the Authority's make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. The Authority bases its assumptions and estimates on parameters available when the financial statements are prepared. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

The Authority makes judgement, estimates and assumptions in the following areas;

- i. Provision for litigations
- ii. Provision for bad debts Inventory obsolescence

**Estimates and assumptions**

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period, are described below. The Entity based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. However, existing circumstances and assumptions about future developments may change

due to market changes or circumstances arising beyond the control of the Entity. Such changes are reflected in the assumptions when they occur. IPSAS 1.140

#### **Useful lives and residual values**

The useful lives and residual values of assets are assessed using the following indicators to inform potential future use and value from disposal:

- The condition of the asset based on the assessment of experts employed by the Entity
- The nature of the asset, its susceptibility and adaptability to changes in technology and processes
- The nature of the processes in which the asset is deployed
- Availability of funding to replace the asset
- Changes in the market in relation to the asset

#### **Provisions**

The Authority makes provisions based on the information available and management's best estimate of the expenditures required to settle the obligation at the reporting date. The Authority makes provisions for areas including bad debts and litigations and inventory obsolescence. Additional disclosure of these estimates of provisions is included in Note 5.

#### **Biological Assets**

The Biological Assets (Tea Bushes) are valued at fair value over economic life duration of lease of the land under tea bushes in line with IPSAS 27.

#### **Work in Progress –IPSAS 11**

This relates to construction of long-term assets. Construction Work in Progress is recorded at the accumulated costs incurred until the asset is put into service. Costs are recognized in proportion to the stage of completion of contract activity and included in the financial statement.

#### **Receivables from exchange and non-exchange transactions**

##### **i. Receivables from exchange transaction**

Revenue arising from exchange transactions and events (rendering of services, sale of goods, and use of entity assets yielding interest) not yet received as at the close of the financial year is recognized as receivables from exchange transaction. This is measured at the fair value of the consideration to be received.

##### **ii. Receivables from non-exchange transactions**

The Authority receives grants from the government based on approved annual budgets and printed estimates. At the close of the financial year, where commitments were made towards services or goods and the equivalent funding has not been received, the outstanding grant is recognized as a receivable from non-exchange transaction. The government grant is recognized as a receivable when there is

**Ewaso Ng'iro South River Basin Development Authority**  
**Annual Reports and Financial Statements**  
**For the year ended June 30, 2023**

reasonable assurance that the grant will be received, and that the entity will comply with the conditions attached to the grant.

**iii. Prepayments**

Where the contribution already paid exceed the contribution due for service at the reporting date, the excess amount is recognized as an asset to the extent of the prepayment. The future payment will be reduced by the prepayment amount.

**6. a) Revenue from non-exchange transactions/ Transfers from other governments**

The Authority receives grants from the Parent Ministry of East Africa Community Asals and Regional Development for Recurrent activities and implementation of capital projects.

Recurrent grants are used to finance personnel emoluments and general administrative expenses whereas Development grants are used to finance capital projects as per the Authority Mandate. In FY 2022/2023, cumulatively, the Authority received **Ksh. 1,028,157,654** compared to **Ksh. 744,890,000** for FY 2021/2022. The 38% grants increase is largely attributable to Drought mitigation monies received of **Ksh 300,000,000** and increase of Development grant by **Ksh 212,629,288**

Revenue from non-exchange transactions		2022-2023 Kshs	2021-2022 Kshs
Transfers From the government	Unconditional grants		
	Recurrent Grant	346,890,000	404,890,000

7. (a) Revenue from exchange transactions

The Authority generates revenue from sale of products such as green tea, horticultural products, tree seedlings, sale of finished leather and Milk chilling from income generating projects. In FY 2022/2023, the Authority generated Ksh 65,352,718 compared to Ksh 75,241,314 in FY 2021/2022, which is 12% decrease. The decrease is due to the severe drought that affected most parts of the country impacting on the quality of raw hides thus affecting the quality of finished leather.

	2022-2023 Kshs	2021-2022 Kshs
Sale of Green Tea	15,244,668	5,841,802

<b>Employee costs</b>	<b>248,192,442</b>	<b>250,773,407</b>

10. Remuneration of Directors

Board of Directors offer oversight on governance and are mandated to hold four meetings in a year, one in every quarter. During meetings, allowances payable to Board of Directors Are Sitting Allowance at the rate of Ksh. 20,000, Night out allowance at Ksh. 18,200, Lunch allowance at Ksh. 2,000 and Mileage at the prescribed AA rates but capped at 1800cc. During FY 2022/2023, the Authority incurred Ksh. 9,124,047 compared to Ksh. 21,197,313 in the previous year. The term of most of the board members expired in financial year 2021-2022 and the new Board was appointed in the 4<sup>th</sup> Quarter of FY 2022-23 which explains the reduction in the cost of remuneration of Directors.

**Ewaso Ng'iro South River Basin Development Authority**  
**Annual Reports and Financial Statements**  
**For the year ended June 30, 2023**

Remuneration of Directors	2022-2023	2021-2022
	Kshs	Kshs
Chairman's Honoraria	261,000	870,000

Ewaso Ng'iro South River Basin Development Authority is ISO 9001:2015 Certified

## 22. Biological Assets

The value of biological assets is reflected in statements as per the professional valuer's estimates that was done in the financial year 2022/2023.

	2022-2023	2021-2022
Biological assets	Kshs	Kshs
Olkalau trees	12,200,000	13,000,000
Tea bushes (Shankoe/Kapune)	23,328,800	34,666,669
Shartuka Trees	0	1,700,000
Narok Head Quarter Assets-Trees bushes	925,200	16,000,000
<b>Total Biological Assets</b>	<b>36,454,000</b>	<b>65,366,669</b>

## 23. Intangible Assets

During FY 2018-2019 the authority did put in place an enterprise resource planning ERP (Dynamic Navision software) system Finance, Human resource and procurement functionality. The value of ERP will be amortized over its useful life. Amortization will begin once all the functionalities of the software is operationalized.

	2022-2023	2021-2022
	Kshs	Kshs
Accounting System	15,303,415	17,489,617
Depreciation & Amortization	(796,925)	(2,186,202)
<b>N.B.V as at 30.06.23</b>	<b>14,506,490</b>	<b>15,303,415</b>

Ewaso Ng'iro South River Basin Development Authority  
Annual Reports and Financial Statements  
For the year ended June 30, 2023

24. Trade and other payables from non-exchange transactions as at 30<sup>th</sup> June 2023

Below payables relates to the ongoing project activities and services rendered to the Authority, the details of payable is in Appendix VII.

	2022-2023	2021-2022
	Kshs	Kshs
Recurrent Payables	11,571,827	33,033,487
Development Payables	28,463,570	64,869,016
Drought Mitigation Payables	277,122,851	166,661,809
<b>Total Payables</b>	<b>317,158,248</b>	<b>264,564,312</b>

25. Deferred Income

The Authority recognizes Government grants used to finance equity or acquisition of asset using the deferred income approach. The grants are recognized as a financing device and dealt with as such in the statement of financial position rather than be recognized in profit or loss to offset the items of expense that they finance. Since there is no repayment expected, such grants are recognized outside the statement of Financial Performance. In the financial year 2022/2023, the Authority deferred Ksh 164,074,102 that was used to finance procurement of Tannery Equipment, construction of an Effluent Treatment Plant, motor vehicles and other assorted assets (land, furniture and buildings). The cost of the various assets acquired were as detailed on the table below,

	2022-2023	2021-2022
	Kshs	Kshs
Tea Expansion-	8,888,020	8,888,020
Tomatoes Factory	124,237,045	124,237,045
Soaking Drum	0	10,259,040
Cottage Industry	0	19,765,345
Fleshing Machine	0	9,960,000
Roller Coaster Machine	10,600,000	10,600,000
Kajiado office	10,098,050	10,098,050
Laptop	0	240,000
Container	0	840,000
EDMS plus ERP Tannery	10,250,987	10,250,987
<b>Total deferred Income A/C</b>	<b>164,074,102</b>	<b>205,138,487</b>

The deferred Income movement is as follows:

	2022-2023 Kshs.	Total
Balance brought forward	205,138,487	205,138,487
<b>Addition.</b>	0	0
Transfers to Capital fund	(41,064,385)	(41,064,385)
Transfers to income statement	0	0
Other transfers	0	0
<b>Balance carried forward</b>	<b>164,074,102</b>	<b>164,074,102</b>

## 26. Accumulated Development Fund

The Authority maintains an Accumulated Development Fund that accounts for government grants used in financing acquisition of Authority assets. This fund is adjusted for depreciation in the year and as at the close of financial year 2022/2023, the balance was Ksh. 967,656,696. The significant increase was as a result of capitalizing the tannery that has been work in progress for long.

The item of Biological Assets and ERP software were re-introduced back as prior year adjustments as they had been erroneously omitted.

### Summary Table: Accumulated Development Fund

	2022-2023
Balance brought forward	948,457,740
<b>Additions:</b>	0
Soaking Drum	10,259,040
Cottage Industry	19,765,345
Laptops/digital camera	705,000
Furniture, Fitting & Equipment's	840,000
Fleshing Machine	9,960,000
<b>Less: Depreciation</b>	<b>(22,330,429)</b>
<b>Total</b>	<b>967,656,696</b>

Soaking Drum	512,952
Loitoktok factory Building	11,450,450
Cottage Industry	1,644,994
Installation of Roller Coaster Machine	10,079,000
Fleshing machine	5,960,000
ERP Software	2,458,000
<b>Sub-Totals</b>	<b>37,325,006</b>

**30. Financial Risk Management.**

The entity's activities expose it to a variety of financial risks including credit and liquidity risks. The company's overall risk management programme focuses on unpredictability of changes in the business environment and seeks to minimize the potential adverse effect of such risks on its performance by setting acceptable levels of risk.

**Ewaso Ng'iro South River Basin Development Authority**  
**Annual Reports and Financial Statements**  
**For the year ended June 30, 2023**

The company's financial risk management objectives and policies are detailed below:

**(i) Credit risk**

The entity has exposure to credit risk, which is the risk that a counterparty will be unable to pay amounts in full when due. Credit risk arises from cash and cash equivalents, and deposits with banks, as well as trade and other receivables and available-for-sale financial investments.

Management assesses the credit quality of each customer, taking into account its financial position, past experience and other factors. Individual risk limits are set based on internal or external assessment in accordance with limits set by the directors. The amounts presented in the statement of financial position are net of allowances for doubtful receivables, estimated by the company's management based on prior experience and their assessment of the current economic environment.

The carrying amount of financial assets recorded in the financial statements representing the entity's maximum exposure to credit risk without taking account of the value of any collateral obtained is made up as follows:

	Total amount Kshs	Fully performing Kshs	Past due Kshs	Impaired Kshs
<b>At 30 June 2023</b>				
Receivables from exchange transactions	8,059,968	8,059,968	0	0
Receivables from non-exchange transactions	0	0	0	0
Bank balances	603,983,083	603,983,083	0	0
<b>Total</b>	<b><u>612,043,051</u></b>	<b><u>612,043,051</u></b>	<b>0</b>	<b>0</b>
<b>At 30 June 2022</b>				
Receivables from exchange transactions	3,207,874	3,207,874	0	0
Receivables from non -exchange transactions	126,500	126,500	0	0
Bank balances	255,365,160	255,365,160	0	0
<b>Total</b>	<b><u>258,699,534</u></b>	<b><u>258,699,534</u></b>	<b>0</b>	<b>0</b>

The customers under the fully performing category are paying their debts as they continue trading with the Authority. The credit risk associated with these receivables is minimal.

The board of directors sets the Authority's credit policies and objectives and lays down parameters within which the various aspects of credit risk management are operated.

**Ewaso Ng'iro South River Basin Development Authority**  
**Annual Reports and Financial Statements**  
**For the year ended June 30, 2023**

**(ii) Liquidity risk management**

Ultimate responsibility for liquidity risk management rests with the Authority's directors, who have built an appropriate liquidity risk management framework for the management of the Authority's short, medium and long-term funding and liquidity management requirements. The entity manages liquidity risk through continuous monitoring of forecasts and actual cash flows. The table below represents cash flows payable by the company under non-derivative financial liabilities by their remaining contractual maturities at the reporting date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

	Less than 1 month	Between 1-3 months	Over 5 months	Total
At 30 June 2023	Kshs	Kshs	Kshs	Kshs

**31. Events after the Reporting Period**

There were no material adjusting and non-adjusting events after the reporting period.

**32. Ultimate and Holding Entity**

The Authority is a State Corporation under the Ministry of East Africa Community, ASAL and Regional Development. Its ultimate parent is the Government of Kenya.

**33. Currency**

The financial statements are presented in Kenya Shillings (Kshs) rounded to the nearest Kshs.

34. APPENDICES

**APPENDIX I: IMPLEMENTATION STATUS OF AUDITOR-GENERAL'S RECOMMENDATIONS**

The following is the summary of issues raised by the external auditor, and management comments that were provided to the auditor.

Reference No. on the external audit Report	Issue / Observations from Auditor	Management comments	Status: (Resolved / Not Resolved)	Timeframe: (Put a date when you expect the issue to be resolved)
	Budgetary Control and performance	The deficit resulted due to depreciation which was not factored in the Budget and the shortfall of ALA target during the year.	Resolved	
No.1	Failure to Establish a sinking fund for the Replacement of Assets	Management underscores the need to have the Sinking fund as recommended. However, The Authority's recurrent budget has been very lean and only sufficient to cater for personnel emoluments. Management will undertake aggressive resource mobilization to enhance its resources to put in place the fund.	Resolved	
No.2	Lack of ethnic Diversity in staffing	This is historical and the same will be resolved overtime as the Authority recruits competitively and give equal chance to all communities including people with disabilities.	Resolved
